

CONTENTS

Part 1

SECTION A. WAVE PROPAGATION

A.1	A.E.KARBOWIAK: Wave Propagation in Inhomogeneous Media	1
A.2	L.FELSEN: Lateral Waves	11
A.3	O.E.H.RYDBECK: Wave Coupling in Multi-mode Inhomogeneous Ionized Media	45
A.4	L.J.F.BROER and L.A.PELETIER: Some Comments on Linear Wave Propagation	85
A.5	M.BOUIX: Relations between Solutions of Scalar and Vector Helmholtz Equations	95
A.6	F.W.SLUITJER: Wave Propagation through an Epstein Profile across a Static Magnetic Field	97
A.7	H.POEVERLEIN: Magnetoionic Theory in Cylindrical Geometry	109
A.8	K.BOCHENEK: Transformation of Electrodynamic into Magneto-gas-dynamic Waves	115
A.9	J.NEUFELD and H.WRIGHT: Excitation of Hydromagnetic Waves by a Helical Proton Stream	121
A.10	A.ISHIMARU: Transients in Magneto-ionic Media and Interrelations between Ordinary and Extraordinary Wave Representations	125
A.11	H.BLOK: The Electromagnetic Field Generated by a Dipole in an Epstein Medium	135
A.12	G.TYRAS: On the Excitation of Electromagnetic Waves in Inhomogeneous Media	147
A.13	Y.INOUE and S.HOROWITZ: Wave-Coupling in an Inhomogeneous Anisotropic Medium	151
A.14	P.MATTILA: Wave Propagation in Anisotropic Media	155
A.15	C.R.BURROWS: Plane Waves in Dissipative Media	157
A.16	D.BIZE, M.CADART, T.CONSOLI, G. ICHTCHENKO and F.PARLANGE: Applications des Micro-ondes à l'Étude des Plasmas	159
A.17	C.ANCONA: Plasmoïde Artificiel par Décharge de Haute Fréquence Focalisée en Haute Atmosphère	169
A.18	R.H.LEVY: The Effect of Coherent Radiation on the Stability of a Crossed-field Electron Beam	191
A.19	J.R.WAIT: Terrestrial Waveguides	195
A.20	N.M.BRICE: Ion Effects Observed in Radio Wave Propagation in the Ionosphere	197
A.21	E.BAHAR and J.R.WAIT: Propagation in a Model Terrestrial Waveguide of Non-uniform Height: Theory and Experiment	211
A.22	R.J.KING, J.R.WAIT and S.W.MALEY: Experimental and Theoretical Studies of Propagation of Ground Waves across Mixed Paths	217

A.23	A. W. BIGGS and H. M. SWARM: Radiation Fields in the Ionosphere from a V.L.F. Horizontal Electric Dipole in Antarctica	225
A.24	R. F. MILLAR: The Far Field of an H-polarized Line Source near the Edge of a Perfectly Conducting Half-plane in the Interface between two Different Media, with Application to Mixed-path Propagation	233
A.25	J. S. NICOLIS: Correlation of the Electromagnetic Field Amplitude Fluctuations in Time and Space on a Long Line-of-sight (212 km) U.H.F. (1760 Mc/s) Overwater Radio Path	237
A.26	M. P. AUBRY and J. C. CERISIER: Champ Produit à 100 km d'Altitude par un Émetteur TBF Situé au Sol	241
A.27	D. M. KERNS: Coping with Multiple Reflections in Precise Measurements of the Speed of Light with a Microwave Michelson Interferometer	245

SECTION B. WAVEGUIDES

B.1	A. HESSEL and A. A. OLINER: Basic Properties of Periodic Waveguides with Glide Reflection Symmetry	251
B.2	R. MITTRA and C. P. BATES: An Alternative Approach to the Solution of a Class of Wiener-Hopf and Related Problems	261
B.3	H. J. FRANKENA: Coupling of two Semi-infinite Circular Waveguides with Walls of Different Surface Admittances	277
B.4	A. G. SVESHNIKOV, A. S. ILJINSKY, I. P. KOTIK and V. P. MODENOV: Theoretical Investigation of Non-uniform Waveguides	283
B.5	J. B. DAVIES and C. A. MUILWYK: The Numerical Solution of Uniform, Loss-free Waveguides with Boundaries of Arbitrary Shape	287
B.6	C. D. HANNAFORD: Propagation in Inhomogeneously-filled Waveguides with Rectilinear Dielectric and Metal Boundaries	289
B.7	W. KRANK: The Calculation of the Propagation Characteristics of a Corrugated Elliptical Waveguide	293
B.8	B. C. TAYLOR and P. J. B. CLARRICOATS: Properties of an Annular Iris in Inhomogeneous Circular Waveguide	297
B.9	H. G. UNGER: Wave Propagation in Horns and through Horn Junctions	303
B.10	L. CAIRO: Ondes Guidées dans une Colonne Cylindrique de Plasma Entouré de Plasma Infini aux Frequences Inférieures à la Gyro-frequence Electronique	307
B.11	K. W. H. FOULDS and D. N. PINDER: Waves in a Coaxial Line Partially Filled with Plasma	343
B.12	A. CSURGAY: The Network Representation of Electromagnetic Field Problems	349
B.13:	G. REITER: Solution of Field Equations for Strongly Coupled Cavity Systems	357
B.14	G. FLACHENECKER and K. LANGE: Conformal Transformation Applied to Reactive Loads in Waveguides	369
B.15	B. ELIASSON: Microwave Directional Coupler	373
B.16	M. BOUTHINON, A. COUMES and J. BENOIT: Filtre à Bande Passant très Étroite Accordable sur la Bande X	379

SECTION C. OVERMODED AND BEAM WAVEGUIDES:
SURFACE WAVES

C.1	H. M. BARLOW: Millimetre Waves and Optical Waves for Long-distance Telecommunications by Waveguide	389
C.2	H. M. BARLOW, H. G. EFFEMEY and S. H. TAHERI: A Circular H_{01} Low-loss Waveguide Applicable to Long-distance Telecommunications	399
C.3	YE. I. NEFYODOV: A Dielectric Prism in the Corner of Overmoded Waveguide	409
C.4	A. E. KARBOWIAK: Lasers and Optical Communication Systems	419
C.5	K. C. KAO and G. A. HOCKAM: Dielectric Fibre Surface Waveguide for Optical Frequencies	441
C.6	V. S. AVERBACH, S. N. VLASOV and V. I. TALANOV: Some Problems in the Theory of Quasi-optical Waveguides and Resonators	445
C.7	B. Z. KATSENELENBAUM: Research on Quasi-optical Lines	459
C.8	P. F. CHECCACCI, A. M. SCHEGGI and G. TORALDO DI FRANCIA: Microwave and Laser Resonators	465
C.9	A. A. OLINER: Guided Complex Waves on Slow-wave Periodic Structures	467
C.10	F. J. ZUCKER: Recent Accomplishments and Outstanding Problems in Boundary Wave Research	477
C.11	S. N. KARP and F. C. KARAL: Generalized Impedance Boundary Conditions with Applications to Surface Wave Structures	479
C.12	J. LOEB: Sur les Ondes de Surface en Régime Transitoire	485
C.13	C. KOOY: A Note on the Propagation of a Pulse by Surface-wave Modes	497
C.14	V. POZZOLO and R. ZICH: Phase Velocity of an Electromagnetic Wave over an Open Periodic Structure	505
C.15	S. LEDEBOER: The Excitation of a Surface Wave by a Coaxial Waveguide	515
C.16	W. SCHLOSSER: The Optimization of Launching Horns for Dielectric Waveguides	527
C.17	G. GOUBAU and F. SCHWERING: A Mode System for Radially Propagating Wavebeams	531
C.18	D. GLOGE: Random Bends and Displacements in a Lens Waveguide	539
