General Preface .....	vii
Preface to Volume 15 .....	ix

## 1 Spatially Modulated Structures in Systems with Competing Interactions

W. SELKE

1 Introduction .....	2
2 Displacement models .....	7
3 Spin models .....	29
4 Phenomenological approaches .....	57
Acknowledgements .....	65
References (with author index) .....	65

## 2 The Large- $n$ Limit in Statistical Mechanics and the Spectral Theory of Disordered Systems

A. M. KHORUNZHY, B. A. KHORUZHENKO, L. A. PASTUR and M. V. SHCHERBINA

1 Introduction .....	74
Part I: Statistical mechanics	
2 Preliminary discussion .....	78
3 Spherical model with uniform spherical field .....	88
4 Large- $n$ limit of non-translationally invariant $n$ -vector model: main theorems .....	108
5 Large- $n$ limit of disordered $n$ -vector model: applications of the main theorems .....	116
6 Spherical model with a nonuniform spherical field .....	137

**Part II: Spectral theory**

7 Preliminary discussion .....	165
8 Wigner model .....	171
9 Random finite-difference operators .....	201
Appendix A: The infinite-range limit of the $n$ -vector model .....	217
Appendix B: Deformed Wigner ensemble (Gaussian random part) .....	225
Appendix C: Derivation of the moment equations for the deformed Wigner ensemble whose random part has finite third moment .....	227
Appendix D: Derivation of (8.2.10) .....	229
Appendix E: Diluted matrices .....	231
Appendix F: Derivation of (9.1.16) .....	232
Appendix G: Large-interaction-radius model .....	233
References (with author index) .....	235
Subject Index .....	241
