## CONTENTS

PREFACE	ix
INTRODUCTION	xi
NOMENCLATURE	xvii
<b>1 BASIC EQUATIONS OF CONVECTIVE HEAT TRANSFER</b>	<b>1</b>
1.1 Initial Remarks	1
1.2 The Continuity, Momentum, and Energy Equations	3
1.3 Equations for the Turbulent Transport of Heat and Momentum	9
1.4 Initial and Boundary Conditions	13
1.5 Similarity Analysis of Mixed Convection	17

<b>2</b>	<b>BASIC INFORMATION ON THE THEORY OF TURBULENT HEAT TRANSFER IN FLOW NEAR WALLS</b>	<b>27</b>
2.1	Introductory Remarks	27
2.2	Turbulent Flows in the Absence of Gravity	28
2.3	Free Convection along a Vertical Surface	41
<b>3</b>	<b>HEAT TRANSFER IN LAMINAR MIXED CONVECTION</b>	<b>57</b>
3.1	Introductory Remarks	57
3.2	Combined LFF Convection in a Boundary Layer	58
3.3	Combined LFF Convection in Channels	68
<b>4</b>	<b>TURBULENT MIXED CONVECTION IN BOUNDARY LAYERS</b>	<b>91</b>
4.1	Fundamentals of the Theory of Thermally Stratified Turbulent Flow	91
4.2	Flow and Heat Transfer in a Horizontal Boundary Layer	98
4.3	Flow and Heat Transfer in a Vertical Boundary Layer	109
<b>5</b>	<b>TURBULENT FLOW AND HEAT TRANSFER IN HORIZONTAL CHANNELS</b>	<b>115</b>
5.1	Flow and Heat Transfer in Plane Channels	115
5.2	Flow and Heat Transfer in Circular Pipes	131
<b>6</b>	<b>TURBULENT FLOW AND HEAT TRANSFER IN VERTICAL CHANNELS</b>	<b>147</b>
6.1	Introductory Remarks	147
6.2	Boundaries for the Effect of Buoyancy	148
6.3	Heat Transfer for Stable Density Distribution in the Channel	156
6.4	Heat Transfer when the Density Distribution in the Channel is Unstable	179
<b>7</b>	<b>GRAVITATIONAL EFFECTS ON HEAT TRANSFER IN A SINGLE-PHASE FLUID NEAR THE CRITICAL POINT</b>	<b>183</b>
7.1	Heat Transfer at Supercritical Pressures	183

7.2 Heat Transfer in Vertical Channels	186
7.3 Heat Transfer in Horizontal Channels	196
