

## CONTENTS

Foreword . . . . .	v
Lattice Gas Cellular Automata . . . . . <i>E.G.D. Cohen and X.P. Kong</i>	1
Bifurcation Diagram for the Jeffery-Hamel Flow . . . . . <i>F.J. Uribe, E. Díaz, A. Bravo, R. Peralta-Fabi and R. Soto</i>	14
Relaxation to Equilibrium and Equipartition Threshold in Closed Hamiltonian Systems . . . . . <i>S. Ruffo</i>	28
Co-operative Models for Pattern Formation in Primate Visual Cortex: Simulations of Phase Behavior . . . . . <i>J.R. Thomson, Wm Cowan, M.J. Zuckermann and M. Grant</i>	38
The Hard-Sphere Order-Disorder Transition in the Bethe Continuum . . . . . <i>A. Robledo</i>	52
Mean-Field Properties of Lattice Models for Micellar Solutions . . . . . <i>V. Talanquer, C. Varea and A. Robledo</i>	64
Theoretical Studies of Phase Equilibria and Thermodynamic Properties of Lipid Bilayers and Monolayers Containing Cholesterol. . . . . <i>M.J. Zuckermann, O.G. Mouritsen and J.H. Ipsen</i>	79
Polymer Melts between Plates . . . . . <i>D. Ausserré</i>	113
Force Between Macroions in an Electrolyte Solution . . . . . <i>D. Henderson</i>	119
Coagulation as a Phase Transition . . . . . <i>A.E. González</i>	128
Temporal Correlations of Multiply Scattered Light . . . . . <i>D.A. Weitz, D.J. Pine, P.N. Pusey, E. Herbolzheimer and P.M. Chaikin</i>	139
Hydrodynamic Interactions in Polymer Solutions . . . . . <i>M. López de Haro, J. Bonet Avalos, A. Pérez-Madrid and J.M. Rubí</i>	151
Dynamics of Polyelectrolyte Solutions . . . . . <i>A.E. Chávez and O. Manero</i>	164

Solid State and Dilute Solution Properties of Some Zwitterionic Polymers. . . . .	174
<i>J. Cardoso, O. Manero, V.M. Monroy, T. Pérez, V.M. Castaño and A.E. González</i>	
Transport and Mixing Rules in Electrolyte Solutions . . . . .	185
<i>H.L. Friedman, E.C. Zhong and F.O. Raineri</i>	
Mutual Diffusion Coefficient Determination Using the Taylor Dispersion Technique .	197
<i>R.C. Castillo and H.C. Domínguez</i>	
An Experimentalist View of the Hard Sphere Theories for Transport Properties. . . .	209
<i>C.A. Nieto de Castro</i>	
List of other papers presented at the Meeting . . . . .	223
