

# Contents

<b>Preface</b>	v
<b>Introduction</b>	vii
<i>P. J. W. Debye</i>	
<b>Introductory Lectures on the Free Phonon Field</b>	1
<i>H. H. Jensen</i>	
<b>Some Aspects of Phonon-Phonon-Interaction</b>	23
<i>W. Ludwig</i>	
<b>Lectures on Phonons and External Radiation</b>	76
<i>A. Sjölander</i>	
<b>Interaction of X-rays with Phonons</b>	102
<i>W. Cochran</i>	
<b>The Electron-Phonon Interaction</b>	119
<i>J. J. Quinn</i>	
<b>Electron-Phonon Interaction in Semiconductors Studied by Transport Properties</b>	138
<i>H. G. Reik</i>	

<b>The Mössbauer Effect and Dynamics of Atomic Motions in Condensed Systems</b>	167
<i>K. S. Singwi</i>	
<b>The Interaction of Long-Wavelength Phonons with Electrons</b>	181
<i>A. R. Mackintosh</i>	
<b>Phonons and Neutron Scattering</b>	221
<i>B. N. Brockhouse</i>	
<b>Interaction of Phonons with Photons: Infrared, Raman, and Brillouin Spectra</b>	276
<i>E. Burstein</i>	
<b>Electron-Phonon Interaction and Superconductivity</b>	343
<i>J. R. Schrieffer</i>	
<b>Phonons in Liquids</b>	373
<i>J. de Boer</i>	
<b>Phonons and Lattice Imperfection</b>	424
<i>A. A. Maradudin</i>	
<b>Microwave Ultrasonics</b>	505
<i>E. H. Jacobsen</i>	
<b>Energy and Charge Transport in Organic Molecular Crystals</b>	578
<i>R. G. Kepler</i>
