

# CONTENTS

<b>Editor's Foreword</b>	v
<b>Preface</b>	vii
<b>Nuclear Magnetic Relaxation • Thesis, Leiden, 1948</b>	1
Introduction	7
Theory of the nuclear magnetic resonance	21
The experimental method	50
Theory and experimental results	81
Relaxation by quadrupole coupling	118
Summary	124
References	126
<b>On the Interaction of Nuclear Spins in a Crystalline Lattice •</b>	
Physica, 15, 386-426 (1949)	129
<b>Comments and Corrections</b>	173
