

TABLE OF CONTENTS

World Congress on Superconductivity, Inc.	v
SECTION 1: BANQUET AND LUNCHEON KEYNOTE ADDRESSES	
The Third Revolution <i>Edward Teller</i>	3
<i>Sergio C. Trindade</i> United Nations Assistant Secretary General and Executive Director	8
<i>Don Ritter</i> U.S. Representative	16
SECTION 2: KEYNOTE AND PLENARY PANEL SESSIONS	
HTSC: Restoring Scientific and Policy Perspective <i>Rustum Roy</i>	27
The Characteristics of the Superconductive Glass State in Single Phase Polycrystalline $\text{LnBa}_2\text{Cu}_3\text{O}_{7-y}$ (Ln = Y, Gd) <i>Zhang Qirui, Zhao Yong, Sun Shifang, Chen Zuyao,</i> <i>Qian Yitai & Zhang Han</i>	42
High T_c Superconductivity: Potential for Expanding Performance of Digital Systems <i>S. K. Tewksbury, L. A. Hornak & M. Hatamian</i>	51
Superconducting Materials — Commercial Processing and Fabrication <i>Tsuneo Nakahara</i>	88
The Role of Superconductivity in Transportation <i>Yoshihiro Kyotani</i>	103
Superconductivity — State of the Art <i>Narain G. Hingorani</i>	119

SECTION 3: CONCURRENT TECHNICAL SESSIONS

I. Energy Generation, Transmission, and Storage

- Applications of High Temperature Superconducting Materials
in the Electric Power System — An Ontario Hydro Perspective 129
F. Y. Chu

II. Space Applications

- Future Superconductivity Applications in Space — A Review 141
Kumar Krishen & Alex Ignatiev

- Research on High Temperature Superconductor Applications
at the Goddard Space Flight Center 155
*S. Castles, S. Breon, M. Viens, C. Allen, R. Patschke,
K. Stewart, H. Moseley, J. Brasunas, L. Hilliard,
C. Richards & Y. Flom*

- High Temperature Superconductor Applications in Electromagnetic
Space Launch 168
Miles R. Palmer & Ali E. Dabiri

III. Electronics

- Aerosol Flow Reactor Production of $Y_1Ba_2Cu_3O_7$ Powder 177
*T. T. Kudas, E. M. Engler, V. Y. Lee, R. Jacowitz,
T. H. Baum, K. Roche & S. S. P. Parkin*

- Digital Josephson Electronics Technology 183
Yoshifusa Wada

- New Effect in Small Superconductor Junctions and its
Applications 197
Masanori Sugahara & Nobuyuki Yoshikawa

- Contacting Superconductors 223
Alton O. Christensen, Sr. & Thomas A. Rabson

IV. Transportation

- Japanese Superconducting Electromagnetic Linear Ship
Propulsion Program 233
*Yohei Sasakawa, Kensaku Imaichi, Eiichi Tada &
Setsuo Takezawa*
- Implications of High Temperature Superconductors for the
Rail Industry 242
Randal H. Ihara
- Cryocoolers for the New High Temperature Superconductors 252
G. Walker, W. Ellison & S. Zylstra

V. Medicine

- Impact of the New Superconductors on Magnetic Resonance
Imaging Magnets 275
Sibley C. Burnett
- Application of Receiver Coils Cooled to Cryogenic Temperatures
in Vivo 282
I. R. Young
- A 4 Tesla Superconducting Whole-Body Magnet for MR Imaging
and Spectroscopy 292
J. Vetter, D. Hentschel, W. Loeffler & E. Reinhardt

VI. Materials

- The Chemistry of Superconductivity 303
Edward Teller
- Fabrication of Bulk Superconducting Ceramics 311
*K. C. Goretta, J. T. Dusek, J. P. Singh, M. T. Lanagan,
U. Balachandran, S. E. Dorris & R. B. Poeppel*
- Superconducting Tape-Shaped Wire by $Y_1Ba_2Cu_3O_{7-y}$ 321
*Toshimi Matsumoto, Michiya Okada, Akira Okayama,
Tadaoki Morimoto, Katsuzo Aihara & Shinpei Matsuda*

VII. High-Energy Physics

- Design and Status of the HERA Superconducting Magnets 331
B. H. Wiik

SECTION 4: POSTER SESSION

- Probing the Electronic and Defect Structure of Perovskite Superconductors 357
M. J. Fluss, A. L. Wachs, P. E. A. Turchi, R. H. Howell, Y. C. Jean, J. Kyle, H. Nakanishi, C. W. Chu, R. L. Meng, H. P. Hor & J. Z. Huang
- 90 K Tl-Ba-Cu-O and 120 K Tl-Ca-Ba-Cu-O Bulk Superconductors 365
Z. Z. Sheng & A. M. Hermann
- Laser Deposition of YBaCuO Superconducting Thin Films 377
H. S. Kwok, P. Mattocks, D. T. Shaw, L. Shi, X. W. Wang, S. Witanachchi, Q. Y. Ying & J. P. Zheng
- Two-Sublattice Model of High- T_c Superconductor $Y_1Ba_2Cu_3O_7$ 386
Valeri I. Ozhogin & Vladimir L. Safonov
- Doping Effects of Co, Fe and Ni on Superconducting Oxide $YBa_2Cu_3O_{7-y}$ 390
Z. H. He, Z. Y. Chen, J. S. Xia, W. C. Yu, Y. T. Qian & Q. R. Zhang
- The Processing of Superconducting Composite Materials by Electro-Discharge Compaction 399
K. Okazaki, R. J. De Angelis, M. E. Saum, D. K. Kim, J. Chu, J. W. Brill, D. R. Zint & C. E. Hamrin, Jr.
- Optimum Conditions for Synthesizing $YBa_2Cu_3O_x$ 409
Ahmed M. Gadalla & Turi Hegg
- Electrical and Magnetic Behavior of Superconducting $YBa_2Cu_3O_{7-\delta}$ Prepared by Sol-Gel Process 426
S. G. Sankar, L. N. Yannopoulos, E. V. Tomy, S. K. Malik, Y. Xu, E. B. Boltich, R. T. Obermyer & W. E. Wallace

Superconductive Ceramics Obtained with Sol-Gel Methods <i>G. Arcangeli, R. Fava, A. Masci, A. Nardi, R. Vatteroni & C. Zondini</i>	433
High T_c Superconducting Oxide Films by Solution Spraying of Inorganic Precursors <i>L. N. Yannopoulos, H. Lessure, Y. Xu, S. Simizu & S. G. Sankar</i>	454
Consolidation of Powders of the Oxide Superconductor $YBa_2Cu_3O_x$ by High Energy-High Rate Processing <i>C. Persad, S. J. Lee, D. R. Peterson, J. S. Swinnea, M. Schmerling, K. M. Ralls, H. L. Marcus & H. Steinfink</i>	460
Oxygen Stoichiometry in $YBa_2Cu_3O_x$ ($7 < x < 8$) <i>Pan Guoqiang, He Zhenghui, Xia Jiansheng, Yu Daoqi, Chen Zuyao, Qian Yitai, Zhang Qirui & Liu Shuanghui</i>	476
Oxygen and Lanthanum Vacancies in $La_{2-x}Sr_xCuO_4$: Modification of the Electronic Structure <i>Brent A. Richert & Roland E. Allen</i>	485
A Research on the Heat Treatment Test on Y-Ba-Cu-O Superconductor in Microgravity <i>Da Daoan, Jiang Wanshun, Shi Baoyi, Liu Congrong, Zhao Tong, Fan Chuizheng, Chen Xuekang, Ma Zhongzhe, Zhang Yanwei, Da Xiaodong, Hu Yunlan, Tan Xiaozhen & Ma Shilong</i>	493
Large Scale Applications of Superconductivity and the High T_c Materials <i>N. Sacchetti</i>	507
SECTION 5: TECHNICAL PANEL	
Opening Comments <i>John B. Goodenough</i>	511
Technonlogy Transfer at Argonne National Laboratory <i>Brian R. T. Frost & Gregory J. Besio</i>	515
Superconductivity Work in India <i>J. S. Rao</i>	522

Superconductor Information from STN International <i>Charles W. Moulton</i>	525
--	-----

SECTION 6: BUSINESS DEVELOPMENT

Strategic Opportunities in Superconductors <i>Alfred A. Sagarese & Jonathan B. Avins</i>	533
Monolithic Superconductors: The Technology and the Venture <i>L. E. Murr</i>	561
Developing a Business Plan <i>Robert D. Crooks</i>	571
<i>Kevin D. Ott</i> Executive Director, Council on Superconductivity for American Competitiveness	576

SECTION 7: LEGAL CONSIDERATIONS

Basic Considerations in Technology Transfer Licensing <i>Tom Arnold</i>	583
100 Factors Involved in Pricing the Technology License <i>Tom Arnold</i>	616
Basic Patent and Trade Secret Law <i>Alan H. Gordon</i>	649
Patent Law Harmonization: European Patents, Foreign Conventions, Patent Cooperation Treaty <i>Willem G. Schuurman</i>	670
