

TABLE OF CONTENTS

| | <u>Page</u> |
|--|-------------|
| Theoretical Review of 1/f Noise (Invited paper) | |
| - A. van der Ziel, University of Minnesota..... | 1 |
| Electrical Noise in Equilibrium Conditions | |
| - M. Mikulinsky, S. Fishman, Weizmann Institute of Science..... | 7 |
| Progress in the Quantum Theory of 1/f Noise | |
| - P. H. Handel, University of Missouri..... | 12 |
| On the Spatially Correlated Temperature Fluctuations in Stationary States | |
| - M. Yokota, Osaka City University..... | 19 |
| Generalized 1/f Noise and the Principles of Infra Quantum Physics | |
| - P. H. Handel, University of Missouri..... | 26 |
| The 1/f Fluctuation and Particle-Wave Interaction | |
| - T. Dodo, Hitachi, Ltd..... | 29 |
| 1/f like Spectrum of Fluctuations in Self-Sustained Systems | |
| - T. Kawakubo, Tokyo Institute of Technology..... | 36 |
| On 1/f Spectrum of Randomly Superposed Relaxation Processes | |
| - M. Agu, T. Kinoshita, Ibaraki University..... | 41 |
| An Equivalent-Network Approach to 1/f Fluctuations | |
| - T. Musha, Tokyo Institute of Technology..... | 49 |
| Drift and 1/f Noise Measurements in Continuous Thin Bismuth Films | |
| - J. L. Tandon, Oklahoma State University, H. R. Bilger, Université des Sciences et Techniques du Languedoc... | 55 |
| Experimental Results on the Nature of the 1/f Noise Process | |
| - Long Term Measurements of Zener Diode Excess Noise | |
| - T. J. Boehm, Texas A & I University, H. R. Bilger, Oklahoma State University J. L. Tandon, California Institute of Technology..... | 62 |
| Low Frequency Noise in Freely Suspended Thin Films at the Superconducting Transition | |
| - M. B. Ketchen, J. Clarke, University of California..... | 68 |
| Temperature Dependence of 1/f Noise in Silver and Copper | |
| - J. W. Eberhard, P. M. Horn, University of Chicago..... | 74 |
| Experimental Facts of 1/f Noise (Invited paper) | |
| - F. N. Hooge, Eindhoven University of Technology..... | 88 |
| 1/f Noise in Nerve Membranes (Invited paper) | |
| - R. J. van den Berg, E. Siebenga, J. de Goede, W. H. Moolenaar, A. A. Verveen, University of Leiden..... | 97 |
| Origin of Current Noise in the Egg Cell Membrane | |
| - H. Ohmori, University of Tokyo..... | 106 |
| 1/f Noise in InP Schottky Diodes | |
| - A. J. Grant, Royal Signals and Radar Establishment..... | 111 |
| 1/f Noise in Carbon Films at Harmonics of the A.C. Excitation | |
| - H. Sutcliffe, Y. Ulgen, University of Salford..... | 118 |

| | |
|---|-----|
| 1/f Noise Produced by Radio Frequency Current in Thin Films of Gold, Silicon and Lead Sulphide | |
| - E. J. P. May, J. M. K. Horwood, University of Exeter..... | 124 |
| 1/f Noise in Si Inversion Layers : The Effect of Oxide Charge and Conduction Mechanism | |
| - R. F. Voss, IBM Thomas J. Watson Research Center..... | 132 |
| 1/f Noise Characteristics of Bipolar Transistors | |
| - H. Higuchi, S. Ochi, Hitachi, Ltd..... | 140 |
| Low-Frequency Noise in MOSFET's at low Current Levels | |
| - H. Katto, M. Aoki, E. Yamada, Hitachi, Ltd..... | 148 |
| Flicker Noise due to Grain Boundaries in CdHgTe | |
| - H. I. Hanafi, A. van der Ziel, University of Minnesota..... | 156 |
| Determination of Hooge's Flicker Noise Constant in CdHgTe | |
| - H. I. Hanafi, A. van der Ziel, University of Minnesota..... | 157 |
| A Review of Flicker Noise Frequency Instabilities in Precision Frequency Standards (Invited paper) | |
| - D. W. Allan, National Bureau of Standards..... | 158 |
| 1/f Noise in Quartz Crystal Resonators | |
| - J. - J. Gagnepain, J. Uebersfeld, Laboratoire de Physique et Métrologie des Oscillateurs du C.N.R.S..... | 173 |
| Survival of the Long Time Correlation in 1/f Noise | |
| - P. H. Handel, C. Eftimiu, University of Missouri..... | 183 |
| Traffic Current Fluctuations on an Expressway | |
| - T. Musha, H. Higuchi, Tokyo Institute of Technology..... | 187 |
| Noise Features of the Rotation of the Earth | |
| - N. Matsunami, K. Nakajima, Tokyo Astronomical Observatory..... | 192 |
| 1/f Noise in Music : Music from 1/f Noise | |
| - R. F. Voss, IBM Thomas J. Watson Research Center..... | 199 |
| The Fractal Geometry of 1/f Fluctuations | |
| - B. B. Mandelbrot, IBM Thomas J. Watson Research Center..... | 206 |
| Low-Frequency Fluctuations as Interference Phenomena | |
| - K. Matsuno, Nippon Electric Co.,Ltd..... | 213 |
| Carrier Energy Loss Spectrum and 1/f Noise at Finite Temperature | |
| - P. H. Handel, University of Missouri..... | 216 |
| Diffusion through a Flux-Controlling Boundary as a Source of 1/f Noise | |
| - E. Frehland, Universität Konstanz..... | 220 |
