

## CONTENTS

INTRODUCTION .....	XI
SECTION I. MAJOR DATA REFERENCES .....	
Structure and spectra .....	1
Energy levels and wavelengths .....	1
Transition probabilities and oscillator strengths .....	1
Atomic and molecular collisions .....	1
General references .....	1
Electron collisions .....	2
Heavy particle collisions .....	2
Plasma-surface interactions .....	3
SECTION II. DATA INDEX FOR COLLISIONS BETWEEN TWO PARTNERS .....	
Photon collisions .....	5
Electron collisions .....	18
Heavy particle collisions .....	83
Isoelectronic sequences .....	201
SECTION III. BIBLIOGRAPHY FOR THE DATA INDEX .....	
SECTION IV. REFERENCES NOT INCLUDED IN THE DATA INDEX .....	
General references .....	273
Photon collisions .....	276
Total absorption and scattering .....	276
Ionization .....	276
Dissociation .....	277
Detachment .....	277
Excitation .....	277
Numerical and bibliographic data collections .....	277
General .....	277
Electron collisions .....	278
Total scattering .....	278
Elastic scattering .....	278
Excitation/de-excitation .....	278
Ionization .....	280
Recombination .....	282
Attachment .....	283
Detachment .....	283
Dissociation .....	283
Bremsstrahlung .....	283
Numerical and bibliographic data collections .....	283
General .....	284

Heavy particle collisions .....	286
Charge transfer .....	286
Excitation/de-excitation .....	290
Ionization .....	290
Association .....	292
Dissociation .....	292
Detachment .....	292
Recombination .....	292
Numerical and bibliographic data collections .....	293
General .....	293
 SECTION V. AUTHOR INDEX .....	 297
 APPENDIX A. REF Codes (Reference abbreviations) .....	 311
 APPENDIX B. Table IV. List of elements .....	 315
