

## I N D I C E

B. PETERS - Prolusione al Corso . . . . .	pag. IX
Gruppo fotografico dei partecipanti al Corso . . . . .	fuori testo

### **Relazioni tra Sole e Terra.**

M. HACK - The surface of the sun . . . . .	pag. 1
J. H. REID - An optical phenomenon associated with type IV solar radio emission . . . . .	» 14
H. ELLIOT - Motion of cosmic ray particles in the geomagnetic field .	» 16
K. W. OGILVIE - Solar protons . . . . .	» 28
C. S. WARWICK - Propagation of solar particles and the interstellar magnetic field . . . . .	» 61
E. R. HARRISON - Solar corpuscular radiation and the nature of the earth's immediate interplanetary environment . . . . .	» 65
E.-Å. BRUNBERG - The production of high-energy particles in the sun and in the solar system . . . . .	» 85
C.-G. FÄLTHAMMAR - Acceleration of cosmic-ray particles by magnetic pumping . . . . .	» 99
E.-Å. BRUNBERG - The earth's radiation belts and the aurora . . . .	» 113
R. E. GENDRIN - Mechanisms of V.L.F. emission . . . . .	» 125

### **Problemi galattici.**

C. J. WADDINGTON - The primary cosmic radiation . . . . .	» 135
J. LABEYRIE - Use of solid-state detectors as energy spectrometers for cosmic high-energy particles . . . . .	» 187
L. SCARSI - Extensive air showers . . . . .	» 194
B. DAYTON - Electrons in the galactic cosmic radiation . . . . .	» 200
J. GOUPIL - $\gamma$ -spectrography in a rocket . . . . .	» 211
H. C. VAN DE HULST - The interstellar gas and the galactic halo . .	» 220
J. M. GREENBERG - The polarization of starlight in the interstellar medium . . . . .	» 227
J. M. GREENBERG - Optical astronomy above the earth's atmosphere .	» 235

**Storia ed origine dei raggi cosmici.**

J. GEISS, H. OESCHGER and U. SCHWARZ - The history of cosmic radiation as revealed by isotopic changes in the meteorites and on the earth	pag. 247
J. ZÄHRINGER - Some recent investigations on primordial rare gases and $^{129}\text{Xe}$ in meteorites . . . . .	» 275
F. HOYLE - On the origin of cosmic rays . . . . .	» 293

**Strumenti e programmi di ricerca.**

G. H. LUDWIG - The U. S. program for particles and fields measurements in space . . . . .	» 320
G. H. LUDWIG - Spacecraft information systems . . . . .	» 348
E. B. DORLING - The British Space Research Programme . . . . .	» 386
H. ELLIOT - Cosmic ray measurements in the U.S./U.K. Satellite S-51	» 392
E.-Å. BRUNBERG - Research and research plans at Kiruna geophysical observatory . . . . .	» 402
M. CECCARELLI - Programs of radioastronomy in Italy . . . . .	» 408
H. C. VAN DE HULST - International agreement as a vital factor in radio astronomy and space research . . . . .	» 412
