Session Officials	xv

## STORAGE, HEAT TRANSFER, AND CONVERSION

Experimental Investigation of a Fused Salt Energy Storage System <i>S. Banerjee, J. W. Hodgins, J. D. Kim, and J. Shewshum</i>	543
Modular Stackable Hot Water Storage/Heat Exchanger System for Solar Installations <i>P. J. Melroy and D. L. Spencer</i>	561
Solar Energy Storage via Liquid Filled Cans—Test Data and Analysis <i>H. Saha</i>	571
Transient Analysis and Optimization of an Extended Surface Thermal Storage Unit Which Utilizes a Phase Change Material <i>J. A. Edwards and K. J. Mody</i>	597
Experimental Study of a Heatpipe with an Active Porous Medium <i>A. V. Spyridonos and N. R. C. Demokritos</i>	619
Analysis of Dynamic Effects in Solar Thermal Energy Conversion Systems <i>C. L. Hamilton</i>	629

## HEATING AND COOLING

A Solar Energy System for Space Heating and Space Cooling <i>Thomas J. McNamara</i>	645
Domestic Solar Heating and Cooling System for Kuwait and Saudi Arabia <i>V. M. Puri and M. A. S. Malik</i>	663
Design Curves for a Solar Heated and Cooled Kuwaiti Home <i>V. M. Puri and M. A. S. Malik</i>	683
Design, Performance, and Economics of Solar Heating and Cooling Systems for Single and Multi-family Residences <i>E. M. Wormser</i>	709

- Refined Model of Solar Space Cooling System  
*R. L. Jenks, R. W. Jones, A. Kremheller, and W. A. Rogers* 731
- An Economic Comparison Between Solar and Conventional Residential Air Conditioning in Miami, Florida  
*Brian H. Rotolante* 749
- Liquid Sorbent Solar Air Conditioner  
*H. I. Robison* 761
- Dehumidification by Solar Energy  
*O. A. Arnas* 781

## **BUILDING APPLICATIONS**

- SUNBIRD I: Utah's First Commercial Solar Home  
*G. W. Young* 801
- Perspectives on Solar Electric Power for Small Homes  
*J. R. White, J. F. Marshall, and R. D. Offenbauer* 819
- Integration of Solar Energy in the Built Environment  
*P. F. M. Casalonga* 835
- The Solar House  
*J. P. Michel* 871
- Honeywell General Offices Solar HVAC System  
*R. F. Block and D. E. Waters* 903
- A Progress Report on The University of Louisville Dual Solar Energy Research Center  
*T. M. Murray and K. C. Bordoloi* 923

## **INDUSTRIAL APPLICATIONS**

- Solar Energy in California Industry: Applications, Characteristics, and Potential  
*R. H. Barbieri and D. S. Pivrotto* 931
- The Development and Implementation of Microprocessor Based Control and Instrumentation Subsystems for Solar Energy Applications  
*R. A. Payton, C. H. Spencer, and T. M. Murray, Jr.* 943

- Solar Desalination  
*B. E. Swaiden*     **951**
- Direct Use of Solar Energy for Water Desalination  
*S. M. A. Moustafa, G. H. Brusewitz, and D. M. Farmer*     **989**
- Solar Energy Conversion in Marine Biological Systems  
*A. Mitsui*     **1013**
