HEAT EXCHANGERS

Direct Contact Heat Exchange for Latent Heat-of-Fusion Energy Storage Systems

M. C. Nichols and R. M. Green **3939**

Moving Bed Heat Transfer for Advanced Power Reactor Applications

T. A. Thornton and D. C. Schluderberg **3959**

Extended Area Ceramic Heat Exchanger

R. A. Clyde **3981**

Solution for Thermal Development of Flow in an Annulus with Periodic Boundary Conditions

A. S. El-Ariny and A. Aziz **3989**

Electrical Augmentation of Spray Evaporators

E. C. Spivey, R. A. Crane, and S. C. Kranc **4005**

STORAGE AND DELIVERY

Experimental Study of Thermal Energy Storage by Use of Reversible Chemical Reactions

I. Fujii and K. Tsuchiya **4021**

A Thermoeconomic Analysis of Thermal Energy Storage

K. W. Li **4037**

Energy Storage by Flywheels: A New Flywheel Concept

J. M. Vance, E. H. Holtzclaw and R. T. Schneider **4057**

Advanced Semiconductor Technology for Alternate Energy Sources: DC to AC Inverters

C. T. Kleiner **4079**

Remote New Energy Sources Utilization in On-site Non-polluting Power Plant: Liquid Air as Energy Carrier Concept and Final Conversion Plant Design

P. DeMarchi Desenzani **4091**

WASTE UTILIZATION

An Evaluation of the Potential for District Heating in the United States

C. L. McDonald **4107**

A New and Novel Form of District Heating Using Thermal Effluents from Electricity Generating Plants

G. T. McLoughlin and M. Reinbergs **4131**

Waste Heat as an Alternative Heat Source

J. Karkheck and J. Powell **4175**

Energy Conservation by Waste Heat Utilization

Shen C. Lee **4193**

Multiple Section Minto Wheel Driven by Heat Recovery from Flue, Steam, and Return Pipes of Household Heating Systems (plus Solar Heat)

D. A. Kelly **4209**

Pyrolysis Gas from Solid Waste Will Provide Total Power Demand for a Major Wastewater Reclamation Plant

R. C. Aberly, R. B. Sieger, and B. D. Bracken **4221**

ECO-FUEL II: A Superior Refuse Derived Fuel

K. M. Kucera and J. A. Capp **4245**

Net Energy from Municipal Solid Waste

N. L. Treat **4255**

CONSERVATION

Conservation as an Energy Source

John A. Belding **4279**

Alternative Energy Sources and Conservation Technologies: Optimal Systems

G. F. Kah **4293**

Assessment of Energy Conservation by Using Alternate Energy Sources in Kansas

J. T. Pytlinski and N. D. Eckhoff **4311**

Extraction of Sensible Heat from Waste Water for Domestic Heating Applications

K. S. Varde **4323**

Seasonal Heat Pump Performance for a Typical Northern United States Environment

J. B. Briggs and C. J. Shaffer **4333**

A Gas Absorption Cycle for Electric Power Generation

T. L. Hartman, III, J. R. Williams, and T. L. Hartman, Jr. **4357**

ENVIRONMENT

Environmental Assessment of Residential Energy Supply Systems that Use Fuel Cells

R. V. Steele, G. L. Johnson, and G. Ciprios **4375**

A Coal Gasification-Gas Cleaning Pilot Plant at North Carolina State University

J. K. Ferrell, R. M. Felder, R. W. Rousseau, and D. W. Alexander
4395

The Cost of Sulfur Removal from Coal in Electric Power Generation

P. P. De Rienzo, R. Destefanis, and C. M. Trapani, Jr. **4417**
