

DETAILED TABLE OF CONTENTS (Volume III)

| | | |
|------------|--|-----|
| APPENDIX A | GRAPHICAL PRESENTATIONS OF MODEL WAVE-PERIOD PROCESSOR PERFORMANCE CHARACTERISTICS | 1 |
| A. 1 | Model Processor Background Characteristics | 9 |
| A. 2 | Performance Characteristics of the Simple Model Binomial Processor | 19 |
| A. 3 | Performance Characteristics of the Model Absolute Value Processor | 47 |
| A. 4 | Performance Characteristics of the Statistical Wave-Period Distribution Processor for an FM-Slide Transmission Signature | 75 |
| APPENDIX B | TABLES OF MODEL WAVE-PERIOD PROCESSOR PERFORMANCE AND SUPPORTING DATA | 103 |
| B- 1 | Mean Value and Standard Deviation of Model Processor Solution Outputs for $r = 0$ | 105 |
| B- 2 | Mean Value of Simple Model Binomial Processor Solution Output | 106 |
| B- 3 | Mean Value of Model Absolute Value Processor Solution Output | 106 |
| B- 4 | Mean Value of Model Simple "or" Processor Solution Output ($p_A = p_B = p$) | 108 |
| B- 5 | Mean Value of Model Simple "or" Processor Solution Output ($p_A = p; p_B = 0.5$) | 108 |

| | | |
|------|---|-----|
| B- 6 | Mean Value of Model Absolute Value “or” Processor Solution Output ($p_A = p_B = p$) | 110 |
| B- 7 | Mean Value of Model Absolute Value “or” Processor Solution Output ($p_A = p; p_B = 0.5$) | 110 |
| B- 8 | Mean Value of Statistical Wave-Period Distribution Processor for an FM-Slide Transmission Code | 112 |
| B- 9 | Relation of $p_A(r)$ and $p_B(r)$ to r in Table B-8 | 112 |
| B-10 | Output Mean Peak Signal-to-Background Ratio in DB, for the Simple Model Binomial Processor | 114 |
| B-11 | $[\bar{S}_R(r; m) - \bar{S}_R(o; m)]/\sigma_{S_R}(o; m)$ in DB, for the Model Absolute Value Processor | 114 |
| B-12 | $[\bar{S}_{(or)}(r; m) - \bar{S}_{(or)}(o; m)]/\sigma_{S_{(or)}}(o; m)$ in DB, for the Model Simple “or” Processor ($p_A = p_B = p$) | 116 |
| B-13 | $[\bar{S}_{(or)}(r; m) - \bar{S}_{(or)}(o; m)]/\sigma_{S_{(or)}}(o; m)$ in DB, for the Model Simple “or” Processor ($p_A = p; p_B = 0.5$) | 116 |
| B-14 | $[\bar{S}_{R(or)}(r; m) - \bar{S}_{R(or)}(o; m)]/\sigma_{S_{R(or)}}(o; m)$ in DB, for the Model Absolute Value “or” Processor ($p_A = p_B = p$) | 118 |
| B-15 | $[\bar{S}_{R(or)}(r; m) - \bar{S}_{R(or)}(o; m)]/\sigma_{S_{R(or)}}(o; m)$ in DB, for the Model Absolute Value “or” Processor ($p_A = p; p_B = 0.5$) | 118 |
| B-16 | $[\bar{S}_{R(or)}(r; m) - \bar{S}_{R(or)}(o; m)]/\sigma_{S_{R(or)}}(o; m)$ in DB, for the Statistical Wave-Period Distribution Processor (FM-Slide Transmission Code) | 120 |
| B-17 | Detection Probability, $P_S(r; n, m)$, for the Simple Model Binomial Processor | 122 |
| B-18 | Detection Probability, $P_{S_R}(r; n, m)$, for the Model Absolute Value Processor | 178 |
| B-19 | Detection Probability, $P_{S_{(or)}}(r; n, m)$, for the Model Simple “or” Processor ($p_A = p_B = p$) | 234 |
| B-20 | Detection Probability, $P_{S_{(or)}}(r; n, m)$, for the Model Simple “or” Processor ($p_A = p; p_B = 0.5$) | 290 |
| B-21 | Detection Probability, $P_{S_{R(or)}}(r; n, m)$ for the Model Absolute Value “or” Processor ($p_A = p_B = p$) | 346 |

| | | |
|-------|---|-----|
| B-22 | Detection Probability, $P_{S_{R(or)}}(r; n, m)$, for the Model Absolute Value "or" Processor ($p_A = p; p_B = 0.5$) | 402 |
| B-23 | Detection Probability, $P_{S_{R(or)}}(r; n, m)$, for the Statistical Wave-Period Distribution Processor (FM-Slide Transmission Code) | 458 |
| B-24 | Normal Probability Integral and Error Function | 514 |
| B-25 | Table of Binomial Coefficients | 522 |
| B-26 | Positive and Negative Integral Powers of Two | 537 |
| INDEX | | 552 |
