TABLE OF CONTENTS

Foreword ix

Part 1 INTERNATIONAL NETWORKING Page

P.T. Kirstein
Some international Developments in Data Services 3

R. Feldman
Trends in European Network Developments 31

H.J. Helms
Organization and Technical Problems of the European Informatics Network 45

J.W. Burren
Satellite Communications Systems and the European Project STELLA 65

Part 2 NETWORK PLANNING

R. Feldman
U.K. Post Office Current and Future Plans 83

W.A. McCrum
Current CCITT Standards 95

A. Belloni and G. Le Moli
Protocols Standardization versus Protocols Conversion in Computer Networks Interconnection 111

Page

R. Feldman
EPSS Developments 151

J. Howlett
Users' View of a National Network 157

S. Miege
Transfer of Cyclades Applications towards TRANSPAC Network 161

Part 3 NETWORK DESIGN

D. Cohen
On Interconnection of Computer Networks 175

E. Raubold
A Model for Inter-process Communication 185

D.W. Davies
Cryptography and Crypto-Systems 201

S.T. Kent
Protocol Design Considerations for Network Security 239

H. Zimmerman and N. Naffah
Protocols and Network Interconnection 261

T. Laws and V. Hathway
Experience from Two Forms of Inter-network Connection 273

Part 4 NETWORK APPLICATION

V.G. Cerf
DARPA Activities in Packet Network Interconnection 287

F.F. Kuo
Defense Packet Switching Networks in the United States 307

W.A. McCrum
Canadian Public-switched Data Networks - Infoswitch and Datapac 315

J.W. Burren
The U.K. S.R.C. Computer Network 331

Page

I.G. Dewis
The British Steel Corporation Network 345

R.A. Rosner
Networking among U.K. Universities 353

J.D. Rice
The North-West Universities Network 365

Part 5 NETWORK MANAGEMENT

F.F. Kuo
Message Services in Computer Networks 387

D.W. Davies
Congestion Control in Hierarchical Networks 397

J.L. Grange
Operation of the CYCLADES Network 411

A. Hinchley
Some Service Aspects of the X25 Interface 421

E. Raubold
Flow Control in the GMD Network 431

List of Participants 469

Index of Names 473
