Preface

ix

1. Pictures and Picture Processing

1.1. Picture Functions	1
1.2. Picture Processing Problems	4
1.3. General References	5

2. Picture Coding

2.1. Probability and Information	7
2.2. Efficient Encoding: Single Messages	10
2.3. Efficient Encoding: Sequences of Messages	12
2.4. Some Additional Remarks on Encoding	17

3. Approximation of Pictures

3.1. Sampling (Prespecified Sample Points)	20
3.2. Quantization (Prespecified Levels)	22
3.3. Variable Sampling and Quantization	27
3.4. Approximation of Line Drawings	29

APPENDIX: Proof of the Sampling Theorem	32
---	----

4. Position-Invariant Operations on Pictures: 1, Theory

4.1. Position-Invariant Operations	35
4.2. Position-Invariant Linear Operations	38
4.3. Fourier Transforms	40
4.4. Spread and Transfer Functions	44

vii

CONTENTS

5.	Position-Invariant Operations on Pictures: 2, Implementations	
5.1.	Digital Implementations	47
5.2.	Electro-Optical Implementations	49
5.3.	Optical Implementations: Methods Not Requiring Coherent Light	51
5.4.	Optical Implementations: Methods Requiring Coherent Light	60
6.	Position-Invariant Operations on Pictures: 3, Applications	
6.1.	Matched Filtering ("Template Matching")	71
6.2.	Spatial Frequency Filtering and Image Restoration	79
6.3.	Measurement of Image Quality	85
6.4.	Image Enhancement: "Smoothing"	88
6.5.	Image Enhancement: "Sharpening"	94
7.	Picture Properties and Pictorial Pattern Recognition	
7.1.	Pattern Recognition	105
7.2.	Property Selection	108
7.3.	Classes of Properties	114
7.4.	Functions of Pictures	122
8.	Picture Segmentation	
8.1.	Segmentation of an Arbitrary Picture	127
8.2.	Subsets Derivable from a Given Subset: 1, Connectivity	133
8.3.	Subsets Derivable from a Given Subset: 2, Distance	141
8.4.	Subsets Derivable from a Given Subset: 3, Direction and Shape	148
9.	Geometrical Properties of Picture Subsets	
9.1.	Topological Properties	155
9.2.	Metric Properties: Size	158
9.3.	Metric Properties: Shape	160
9.4.	Functions of Picture Subsets	163
10.	Picture Description and Picture Languages	
10.1.	Picture Description Languages	168
10.2.	Picture Languages	173
10.3.	Models for Classes of Pictures	179
	<i>Author Index</i>	185
	<i>Subject Index</i>	193
	viii
