

CONTENTS

The Scientific Glassblower in Cultural Perspective	9
Norman Alexandre	
Conductive Coating of Borosilicate Glass	15
F. M. Van Damme	
Diamond Drilling in Glass	21
J. P. Lunzer	
Outline of Thin Film Depositioning and Ion Plating for the Glassblower	26
Edwin E. Eckberg	
Adjusting Stresses in Glass-to-Alumina Seals by Thermal Conditioning	37
Richard W. Beiswenger	
A New Melting Point Apparatus	44
Joseph W. Baum and Franklin W. Gubitzi	
Some Applications of Solder Glass	46
Basil Gribbon	
The Glass Sealing Characteristics of Copper Alloy C.D.A. #638 ...	55
J. M. Popplewell	
Fabrication of a Travelling Wave Tube Envelope	69
John Roushey	
Chemically Strengthened Glass	79
W. C. Drohan	
Metal to Ceramic Seals, High Current Capacity Glass to Metal Seals, Quartz Sealing with R.T.V.	81
William A. Gilhooley	
An All-Glass Device for Fabricating Gel Electrophoresis Slabs	92
William R. Dehn	
Growth of Shaped Sapphire Single Crystals	97
G. F. Hurley	
Construction Techniques Used for Micro High Purity Silica Cells	104
William J. Schulze	
Our Mercury Diffusion Vacuum Pump and its Backing Pressure Requirements from the Mechanical Pump	110
Albert P. Drasky	
Safety in the Glass Shop	117
In Attendance	121
