Preface	vii
Summary of Notation and Terminology	xiii
1 Controlled Markov Processes	1
1.1 Introduction	1
1.2 Stochastic Control Problems	1
Control Models	1
Policies	3
Performance Criteria	6
Control Problems	7
1.3 Examples	9
An Inventory/Production System	10
Control of Water Reservoirs	11
Fisheries Management	12
Nonstationary MCM's	13
Semi-Markov Control Models	14
1.4 Further Comments	15
2 Discounted Reward Criterion	17
2.1 Introduction	17
Summary	17
2.2 Optimality Conditions	18
Continuity of v^*	23
2.3 Asymptotic Discount Optimality	24
2.4 Approximation of MCM's	27
Nonstationary Value-Iteration	27
Finite-State Approximations	32
2.5 Adaptive Control Models	34
Preliminaries	34
Nonstationary Value-Iteration	35
The Principle of Estimation and Control	38

	Adaptive Policies	39
2.6	Nonparametric Adaptive Control	40
	The Parametric Approach	41
	New Setting	42
	The Empirical Distribution Process	44
	Nonparametric Adaptive Policies	45
2.7	Comments and References	47
3	Average Reward Criterion	51
3.1	Introduction	51
	Summary	52
3.2	The Optimality Equation	52
3.3	Ergodicity Conditions	56
3.4	Value Iteration	62
	Uniform Approximations	62
	Successive Averagings	66
3.5	Approximating Models	67
3.6	Nonstationary Value Iteration	71
	Nonstationary Successive Averagings	75
	Discounted-Like NVI	76
3.7	Adaptive Control Models	77
	Preliminaries	77
	The Principle of Estimation and Control (PEC)	79
	Nonstationary Value Iteration (NVI)	79
3.8	Comments and References	81
4	Partially Observable Control Models	83
4.1	Introduction	83
	Summary	83
4.2	PO-CM: Case of Known Parameters	84
	The PO Control Problem	86
4.3	Transformation into a CO Control Problem	86
	<i>I</i> -Policies	88
	The New Control Model	89
4.4	Optimal <i>I</i> -Policies	90
4.5	PO-CM's with Unknown Parameters	93
	PEC and NVI <i>I</i> -Policies	95
4.6	Comments and References	96

Contents	xi
5	Parameter Estimation in MCM's 98
5.1	Introduction 98
	Summary 98
5.2	Contrast Functions 99
5.3	Minimum Contrast Estimators 101
5.4	Comments and References 105
6	Discretization Procedures 107
6.1	Introduction 107
	Summary 107
6.2	Preliminaries 107
6.3	The Non-Adaptive Case 109
	A Non-Recursive Procedure 109
	A Recursive Procedure 111
6.4	Adaptive Control Problems 113
	Preliminaries 113
	Discretization of the PEC Adaptive Policy 114
	Discretization of the NVI Adaptive Policy 115
6.5	Proofs 116
	The Non-Adaptive Case 116
	The Adaptive Case 119
6.6	Comments and References 121
	Appendix A. Contraction Operators 122
	Appendix B. Probability Measures 124
	Total Variation Norm 124
	Weak Convergence 125
	Appendix C. Stochastic Kernels 127
	Appendix D. Multifunctions and Measurable Selectors 129
	The Hausdorff Metric 129
	Multifunctions 129
	References 132
	Author Index 143
	Subject Index 147
