SeriesEditor'sPrefacevii
Prefaceix
1.ElementsoftheTheoryofRandomFields1
1.1.Basicconceptsandnotation1
1.2.Homogeneousandisotropicrandomfields9
1.3.Spectralpropertiesofhigherordermoments
ofrandomfields20
1.4.Somepropertiesoftheuniformdistribution24
1.5.Variancesofintegralsofrandomfields27
1.6.Weakdependenceconditionsforrandomfields32
1.7.Acentrallimittheorem35
1.8.Momentinequalities43
1.9.Invarianceprinciple49
2.LimitTheoremsforFunctionalsofGaussianFields54
2.1.Variancesofintegralsoflocal Gaussianfunctionals54
2.2.Reductionconditionsforstronglydependentrandomfields61
2.3.Centrallimittheoremfornon-lineartransformations
ofGaussianfields70
2.4.Approximationfordistributionofgeometricfunctionals
ofGaussianfields76
2.5.Reductionconditionsforweightedfunctionals83
2.6.Reductionconditionsforfunctionals
dependingonaparameter85
2.7.Reductionconditionsformeasuresofexcess
overamovinglevel90
2.8.Reductionconditionsforcharacteristics
oftheexcessoveraradialsurface107
2.9.Multiplestochasticintegrals114
2.10.Conditionsforattractionoffunctionalsofhomogeneous
isotropicGaussianfieldstosemi-stableprocesses117

3.EstimationofMathematicalExpectation129
3.1.Asymptoticpropertiesoftheleastsquaresestimators
forlinearregressioncoefficients129
3.2.Consistencyoftheleastsquaresestimate
undernon-linearparametrization138
3.3.Asymptoticexpansionofleastsquaresestimators146
3.4.Asymptoticnormalityandconvergenceofmoments
forleastsquaresestimators155
3.5.Consistencyoftheleastmoduliestimators158
3.6.Asymptoticnormalityoftheleastmoduliestimators163
4.EstimationoftheCorrelationFunction174
4.1.Definitionofestimators174
4.2.Consistency176
4.3.Asymptoticnormality184
4.4.Asymptoticnormality.Thecaseofahomogeneous
isotropicfield196
4.5.Estimationbymeansofseveralindependent
samplefunctions203
4.6.Confidenceintervals208
