

CONTENTS

SECTION 1 - GEOMECHANICS

INVITED PAPER

Boundary Element Methods in Geomechanics 3
D.E. Beskos

Dynamic Boundary Element Analysis of Foundation Slabs on Layered Soil 29
L. Gaul, P. Klein and M. Plenge

INVITED PAPER

Unilateral Contact in Dynamic Soil-Structure Interaction by a Time Domain Boundary Element Method 45
H. Antes and B. Steinfeld

3-D Analysis of Vibration Isolation of Machine Foundations 59
B. Dasgupta, D.E. Beskos and I.G. Vardoulakis

Foundation-Soil Foundation Interaction: An Application 75
D.L. Karabalis and Mohsen Mohammadi

INVITED PAPER

Boundary Integral Equation Formulation for Dynamic Poroelasticity 89
G.D. Manolis and D.E. Beskos

SECTION 2 - ROCK AND SOIL MECHANICS

The Analysis of Dynamic Response of Underground Structures 107
D. Zhou, Z. Weng and B. Xu

BE-BEM: An Efficient Model for the Analysis of Underground Openings 123
R. Pöttler

A Boundary Element Method for the Progressive Failure of Rock Medium 137
J. Chen and W. Yuan

Boundary Element Analysis of Incrementally Constructed Embankments 151
M. Rahbari and Dj. Modjtahedi

Dynamic Response Analysis of Porous Elastic Seabed and Offshore Structures	163
<i>T. Kawakami and M. Kitahara</i>	

SECTION 3 - SOIL DYNAMICS

INVITED PAPER

Analysis of the Dynamic Response of Dam-Soil-Reservoir Systems by BEM	179
<i>J. Dominguez and F. Medina</i>	

Application of the BEM-FEM Hybrid Method to Dynamic Analysis of an Alluvial Valley Subjected to Seismic Waves - Simulation Analysis of Strong Ground Motion in Mexico City	195
<i>E. Kitamura, K. Urao, T. Ohta and M. Motosaka and M. Kamata</i>	

The Use of Non-Reflecting Boundary Conditions in Soil Dynamics	207
<i>C. Navarro and A. Samartín</i>	

SECTION 4 - WAVE PROPAGATION

INVITED PAPER

Integral Equation Methods in Acoustics	221
<i>R.P. Shaw</i>	

An Alternative Procedure to Solve Helmholtz Problems by BEM	245
<i>J.A. Costa Jr.</i>	

Solution of Wave Equation Problems using BEM	255
<i>B. Benmansour, D. Ouazar and C.A. Brebbia</i>	

SECTION 5 - ACOUSTICS

INVITED PAPER

Boundary Element Methods in Acoustics and Vibrations: A Review of the Last Twenty Years	269
<i>P.J.T. Filippi</i>	

Recent Developments and Applications of the BEM in Acoustics and Noise Control	289
<i>A.F. Seybert and T.W. Wu</i>	

Boundary Element Methods for Acoustic Wave Scattering 301
W.S. Hall and W.H. Robertson

Iterative Techniques for Boundary Element Methods – 317
Application to the Exterior Acoustic Problem
S. Amini and K. Chen

SECTION 6 - ELASTODYNAMICS

INVITED PAPER
Recent Progress in BEM for Elastodynamics 335
S. Kobayashi

INVITED PAPER
Dynamic Soil-Structure Interaction by BEM 351
D.L. Karabalis

The Symmetric Dynamic Boundary Element Method (SDBEM) 375
for Transient Elastodynamic Analysis
R. Haisheng

INVITED PAPER
Boundary Element Method Applications in Two-Dimensional 387
Transient Elastodynamics
W.J. Mansur

SECTION 7 - PLATE VIBRATIONS

INVITED PAPER
Dynamic Analysis of Elastic Plates 403
C.P. Providakis and D.E. Beskos

INVITED PAPER
Vibration of Plates 415
J.R. Hutchinson

A BEM Approach to Static and Dynamic Analysis of Plates 431
with Internal Supports
J.T. Katsikadelis, E.J. Sapountzakis and E.G. Zorba
