

CONTENTS

Preface	vii
Introduction	xi
I. Column Buckling--An Elementary Example of Bifurcation EDWARD L. REISS, New York University	1
II. Bifurcation Theory for Ordinary differential Equations JOSEPH B. KELLER, New York University	17
III. Existence of Buckled States of Circular Plates Via the Schauder Fixed Point Theorem JAY H. WOLKOWISKY, University of Colorado	49
IV. Buckled States of Elastic Rings I. TADJBAKHSI, I.B.M. Corporation	69
Appendix: The Case $n = 1$ STUART ANTMAN, New York University	93
V. A Bifurcation Problem in Superconductivity F. ODEH, I.B.M. Corporation	99
VI. A Bifurcation Theory for Nonlinear Elliptic Partial Differential Equations and Related Systems MELVYN S. BERGER, University of Minnesota	113
VII. A Bifurcation Theory for Nonlinear Elliptic Partial Differential Equations (continued) MELVYN S. BERGER, University of Minnesota	191
VIII. Some Positive Problems Suggested by Nonlinear Heat Generation H.B. KELLER, California Institute of Technology	217

- | | | |
|-------|--|-----|
| IX. | Bifurcation Phenomena in Surface Wave Theory
J.J. STOKER, New York University | 257 |
| X. | Perturbation Theory of Quasiperiodic
Solutions of Differential Equations
J. MOSER, New York University | 283 |
| XI. | Some Buckling Problems in Nonlinear
Elasticity
C. SENSENIG, New York University | 309 |
| XII. | Equilibrium States of Nonlinearly Elastic Rods
STUART ANTMAN, New York University | 331 |
| XIII. | Nonuniqueness of Rectangular Solutions of the
Bénard Problem
PAUL H. RABINOWITZ, Stanford University | 359 |
| XIV. | Exchange of Stability in Couette Flow
H.F. WEINBERGER, University of Minnesota | 395 |
| XV. | Perturbation Solutions of Some Nonlinear
Boundary Value Problems
M. MILLMAN, New York University | 411 |
