

## TABLE OF CONTENTS

	Page
Prerequisites	xi
Notation	xv
Chapter 1. General Introduction	1
Chapter 2. Second-Order Random Functions	12
Chapter 3. Stationary Second-Order Processes	32
Chapter 4. Interpolation and Prediction	52
Chapter 5. Strictly-Stationary Processes and Ergodic Theory	83
Chapter 6. Markov Transition Functions	106
Chapter 7. The Application of Semigroup Theory	134
Chapter 8. Markov Processes	181
Chapter 9. Strong Markov Processes	204
Chapter 10. Martingale Theory	234
Appendix 1.	250
Appendix 2.	255
Bibliography	260
Index	262
