

CONTENTS

Preface to English Edition	v
Some New Applications of the Shtokalo Method V. M. ALEKSEEV	... 1
Solving the Boundary Value Problems of Mathematical Physics by the Dynamic Programming Method V. A. BARANENKO and V. K. ZHURAKOVA	... 5
Stability of almost Periodic Solutions of Generalized Duffing's Equations K. G. BALEEV and V. V. MISAK	... 9
On the Dynamical Theory of Bunching R. F. GANIEV and L. E. UKRAINSKII	... 13
Solvability of a Class of Nonlinear Boundary Value Problems L. D. GORDINSKII	... 23
Oscillatory Motion of an Axially-Symmetric Rigid Body and Stabilization of Rotations V. A. GROBOV	... 32
Application of the Peaceman-Rachford Method in Solving the Deflection Problem of a Disc Supported by a Rectangular Grid A. N. ZHEZHERYA	... 37
Basic Integral Representation of x-Analytic Functions and its Application in Solving some Integral Equations A. A. KAPSHIVI'I	... 43
Kolmogorov's Differential Equations in Markov Processes I. F. KLYUINIK	... 53
Boundary Value Problem for Equations Given in Implicit Form with Retardation YU. I. KOVACH	... 57
Solving the Problem of Complex x-Analytic Potentials of Two Circular Coaxial Discs N. P. KOPISTIRA	... 75
On a Geometrical Condition for Solvability of some Bondary-Value Problems for Linear Equations of Elliptic Type and Strongly Elliptic Second-Order Systems I. V. KOROBCHUK	... 80
Stability Criteria for Non-Autonomous Differential Equations A. K. LOPATIN	... 86

On a Numerical Method in the Analytical Dynamics of Gyrocompasses A. A. MARTYNYUK and A. P. YANISHEVSKII	... 96
Conditional Periodic Oscillations in Nonlinear Systems YU. A. MITROPOLISKII and A. M. SAMOILENKO	... 103
Investigation of a Double Frequency Regime of Natural Oscillations of a Circular Membrane on a Nonlinear Elastic Foundation B. I. MOSEENKOV	... 127
On the Form of the Natural Oscillations of a Thread of Variable Length, Drawn by a Projectile V. D. NOVIKOV	... 137
Periodic Boundary Value Problem for Linear Hyperbolic Equations with Constant Coefficients B. I. PTASHNIK	... 142
Estimates of Poisson Kernels for Equations, Correct in Petrovsky's Sense, with Positive Genus and Two Independent Variables F. G. SELEZNEVA and S. D. EIDEL'MAN	... 147
Double-Frequency Non-Stationary Constrained Oscillations of a Beam K. R. STEVANOVICH	... 153
On a Method of Solving External Boundary Value Problems A. I. STREL'CHENKO, S. V. KOLOSOVA and V. L. RVACHEV	... 169
Internal Estimates of the Solutions of Parabolic Systems in Dini Spaces L. M. TYCHINSKAYA	... 175
Numerical Solution of the Stability Problem of Three-Sheet Cylindrical Shells I. S. FEDORCHENKO	... 182
On Estimates of Zeros of Classical Orthogonal Polynomial V. I. MAKAROV	... 195
