

# CONTENTS

Preface .....	ix
List of Contributors .....	xi
<b>QUANTUM CHAOS</b>	
The Role of Perturbation Theory in the Development of Physics .....	1
M.C. Gutzwiller	
Dynamical Chaos and Many-Body Quantum Systems .....	19
P. Gaspard	
Unbounded Quantum Diffusion and a New Class of Level Statistics .....	43
T. Geisel, R. Ketzmerick and G. Petschel	
Quantal Suppression of Chaos and its Realizations .....	61
S. Fishman	
A Model for Irregular Scattering in the Presence of Localization .....	73
F. Borgonovi and I. Guarneri	
Localization and Delocalization of Quantum Chaos .....	81
D. Shepelyansky	
Scaling Properties of Localized Quantum Chaos .....	89
F.M. Izrailev	
Dynamical Localization - Mathematical Framework .....	105
J. Bellissard and A. Borelli	
Keeping Track of Chaos by Quantum-Nondemolition Measurements .....	131
S. Weigert	
Tunnelling and the Lazy Baker's Map .....	139
N.L. Balazs	
Regular Orbits for the Stadium Billiard .....	145
J.D. Meiss	
Banded Random Matrix Ensembles .....	167
M. Feingold	

Chaotic Behaviour of Open Quantum Mechanical Systems .....	177
F.-M. Dittes, I. Rotter and T.H. Seligman	
Relativistic Quantum Chaos in de Sitter Cosmologies .....	187
R. Tomaschitz	
<b>QUANTUM MEASUREMENT</b>	
Quantum Records .....	199
I. Percival	
Macroscopic Quantum Objects and their Interaction with External Environments .....	205
T.D. Clark, T.P. Spiller, R.J. Prance, H. Prance, J. Ralph and A. Clippingdale	
Continuously Measured Chaotic Quantum Systems .....	219
T. Dittrich and R. Graham	
Measurement Aspects of Quantum Optics .....	231
S. Stenholm	
On the Completeness of the Classical Limit of Quantum Mechanics .....	241
G. Mantica and J. Ford	
Looking at the Quantum World with Classical Eyes .....	249
A. Peres	
Quantum Mechanics and Real Events .....	257
O. Penrose	
Negative Probability and the Correspondence between Quantum and Classical Physics .....	265
M. Nauenberg and A. Keith	
When Does a Wave Become a Particle? .....	273
E.J. Squires	
Relativistic Model for Statevector Reduction .....	283
P. Pearle	
Quantum Measurement and Gravity for Each Other .....	299
L. Diósi	
The Dynamical Reduction Program .....	305
G. Ghirardi	
Index .....	325
