CONTENTS

Part I. Problems. 7

1. Reduction of partial differential equations with two independent variables to canonical form 7
   1. Equations of hyperbolic type 7
   2. Equations of parabolic type 8
   3. Equations of elliptic type 8
2. The method of characteristics. 9
3. Separation of variables. 23
   1. Equations of hyperbolic type 26
   2. Equations of parabolic type. 33
   3. Equations of elliptic type 38

Part. II. Solutions and hints 43
