

## CONTENTS

<i>Foreword to Volumes 6 and 7</i>	v
<i>Contents</i>	ix
<i>Abbreviated Titles of Periodicals</i>	xii
<i>Abbreviations</i>	xiv
<i>Acknowledgements</i>	xv
<i>General Introduction to Volumes 6 and 7, "A Glimpse of the Young Niels Bohr and his World of Thought"</i>	xvii

### PART I: THE EMERGENCE OF THE COMPLEMENTARITY ARGUMENT

Chronology of Events	3
<i>Introduction</i>	7
1 Copenhagen Discussions Prior to the Establishment of the Uncertainty Relations	7
2 The Uncertainty Relation and the $\gamma$ -Ray Microscope	16
3 Preparation for the Como Lecture	26
4 The Como Conference and Continued Work on the Manuscript	29
5 The Solvay Meeting 1927	35
6 The Final Touch	41
I <i>Atomic Theory and Wave Mechanics</i> (Abstract); <i>Atomteori og Bølgemekanik</i> , Overs. Dan. Vidensk. Selsk. Forh. Juni 1926 – Maj 1927, pp. 28–29	55
<i>Atomic theory and wave mechanics</i> , Nature <b>119</b> (1927) 262	56
II <i>Untitled Fragment</i> (1927)	57
Translation	61
Facsimile	63
III <i>Philosophical Foundations of the Quantum Theory</i> (1927); Unpublished Manuscript	67
IV <i>Fundamental Problems of the Quantum Theory</i> (1927); Unpublished Manuscript	73
Facsimile	81
V <i>The Quantum Postulate and the Recent Development of Atomic Theory [I]</i> (1927); Unpublished Manuscript	89
VI <i>General Discussion at the Fifth Solvay Conference, "Électrons et photons"</i> , Rapports et discussions du cinquième Conseil de physique tenu à Bruxelles du 24 au 29	

CONTENTS

	Octobre 1927, Gauthier-Villars, Paris 1928, pp. 253–256, 261–263 and 264–265, and Unpublished Manuscript	99
VII	<i>The Quantum Postulate and the Recent Development of Atomic Theory [2]</i> (Abstract); <i>Kvantepostulatet og Atomteoriens seneste Udvikling</i> , Overs. Dan. Vidensk. Selsk. Forh. Juni 1927 – Maj 1928, p. 27	107
	<i>The quantum postulate and the recent development of atomic theory</i> , Nature <b>121</b> (1928) 78	108
VIII	<i>The Quantum Postulate and the Recent Development of Atomic Theory [3]</i> , Atti del Congresso Internazionale dei Fisici 11–20 Settembre 1927, Como–Pavia–Roma, Volume Secondo, Nicola Zanichelli, Bologna 1928, pp. 565–588	109
	Discussion Remarks, <i>ibid.</i> , pp. 589–598	137
IX	<i>The Quantum Postulate and the Recent Development of Atomic Theory [4]</i> , Nature (Suppl.) <b>121</b> (1928) 580–590	147
Appendix,	W. Heisenberg: <i>Über den anschaulichen Inhalt der quantentheoretischen                  Kinematik und Mechanik</i> , Z. Phys. <b>43</b> (1927) 172–198	159

**PART II: FURTHER ELUCIDATION OF THE COMPLEMENTARITY  
ARGUMENT**

	<i>Introduction</i>	189
	1 Contribution to the Planck Jubilee Issue	189
	2 The Meeting of Scandinavian Scientists and the University Year Book	195
I	<i>Quantum Theory and Relativity</i> (Abstract); <i>Kvanteteori og Relativitet</i> , Overs. Dan. Vidensk. Selsk. Forh. Juni 1928 – Maj 1929, p. 24	199
	<i>Quantum theory and relativity</i> , Nature <b>123</b> (1929) 434	200
II	<i>The Quantum of Action and the Description of Nature; Wirkungsquantum und                  Naturbeschreibung</i> , Naturwiss. <b>17</b> (1929) 483–486	201
	<i>The Quantum of Action and the Description of Nature</i> , “Atomic Theory and the Description of Nature”, Camb. Univ. Press, 1934 (1961), pp. 92–101	208
III	<i>The Atomic Theory and the Fundamental Principles Underlying the Description of                  Nature; Atomteorien og Grundprincipperne for Naturbeskrivelsen</i> , Beretning om det 18. skandinaviske Naturforskersmøde i København 26.–31. August 1929, Copenhagen 1929, pp. 71–83	219
	<i>The Atomic Theory and the Fundamental Principles Underlying the Description of                  Nature</i> , “Atomic Theory and the Description of Nature”, Camb. Univ. Press, 1934 (1961), pp. 102–119	236
IV	<i>Introductory Survey</i> (with <i>Addendum of 1931</i> ); <i>Indledende Oversigt</i> (med <i>Tillæg fra                  1931</i> ), “Atomteori og Naturbeskrivelse”, Copenhagen 1929, pp. 5–19, and Copenhagen 1958, pp. 23–25	255
	<i>Introductory Survey</i> (with <i>Addendum of 1931</i> ), “Atomic Theory and the Descrip- tion of Nature”, Camb. Univ. Press, 1934 (1961), pp. 1–24	277

**PART III: GENERAL ASPECTS OF PHYSICAL DESCRIPTION**

	<i>Introduction</i>	305
	1 An Interlude: The Magnetic Electron	305
	2 The Maxwell and Faraday Lectures. Bohr’s Views on Thermodynamics and Statistical Mechanics	316

## CONTENTS

I	<i>The Magnetic Electron [1] (1929)</i> ; Unpublished Manuscript	331
II	<i>The Magnetic Electron [2] (1930)</i> ; W. Pauli: <i>Diskussion einiger Versuchsanordnungen zur Bestimmung des Spinmomentes an freien Elektronen</i> ; German Manuscript	337
	Discussion Remarks at the Solvay Conference 1930	347
III	<i>Philosophical Aspects of Atomic Theory</i> (Abstract), <i>Nature</i> <b>125</b> (1930) 958	351
IV	<i>The Use of the Concepts of Space and Time in Atomic Theory</i> (Abstract); <i>Om Benyttelsen af Begreberne Rum og Tid i Atomteorien</i> , Overs. Dan. Vidensk. Selsk. Forh. Juni 1930 – Maj 1931, p. 26	353
	<i>The use of the concepts of space and time in atomic theory</i> , <i>Nature</i> <b>127</b> (1931) 43	354
V	<i>On Atomic Stability</i> (Abstract), Brit. Ass. Adv. Sci., Report of the Centenary Meeting, London – 1931, September 23–30, London 1932, p. 333	355
VI	<i>Maxwell and Modern Theoretical Physics</i> , <i>Nature</i> (Suppl.) <b>128</b> (1931) 691–692	357
VII	<i>Space–Time–Continuity and Atomic Physics (1931)</i> ; Unpublished Manuscript	361
VIII	<i>Faraday Lecture: Chemistry and the Quantum Theory of Atomic Constitution</i> , J. Chem. Soc. London, 1932, pp. 349–384	371

### PART IV: SELECTED CORRESPONDENCE (MAINLY 1926–1930)

<i>Introduction</i>	411
<i>Correspondence Included</i>	412
Correspondents	
<i>Charles G. Darwin</i>	415
<i>Paul A.M. Dirac</i>	415
<i>Paul Ehrenfest</i>	415
<i>Albert Einstein</i>	418
<i>Ralph H. Fowler</i>	421
<i>Werner Heisenberg</i>	424
<i>Hendrik A. Kramers</i>	425
<i>Carl W. Oseen</i>	430
<i>Wolfgang Pauli</i>	432
<i>Max Planck</i>	456
<i>Ernest Rutherford</i>	457
<i>Erwin Schrödinger</i>	459
<i>Otto Stern</i>	467

### INVENTORY OF RELEVANT MANUSCRIPTS IN THE NIELS BOHR ARCHIVE

<i>Introduction</i>	477
