Foreword by T. W. Mullikin	xi
----------------------------	----

Author's Note	xv
---------------	----

PART ONE

Radiative Transfer

1. *The Method of Discrete Ordinates*

1.	On the Radiative Equilibrium of a Stellar Atmosphere, II <i>The Astrophysical Journal</i> 100, no. 1 (1944): 76–86	5
2.	On the Radiative Equilibrium of a Stellar Atmosphere, V <i>The Astrophysical Journal</i> 101, no. 1 (1945): 95–107	16
3.	On the Radiative Equilibrium of a Stellar Atmosphere, VII <i>The Astrophysical Journal</i> 101, no. 3 (1945): 328–47	29
4.	On the Radiative Equilibrium of a Stellar Atmosphere, VIII <i>The Astrophysical Journal</i> 101, no. 3 (1945): 348–55	49
5.	On the Radiative Equilibrium of a Stellar Atmosphere, XII <i>The Astrophysical Journal</i> 104, no. 2 (1946): 191–202	57
6.	On the Radiative Equilibrium of a Stellar Atmosphere, XXI <i>The Astrophysical Journal</i> 106, no. 2 (1947): 152–216	69

2. Radiative Transfer Allowing for Polarization of Scattering Light

- | | | |
|-----|--|-----|
| 7. | On the Radiative Equilibrium of a Stellar Atmosphere, X
<i>The Astrophysical Journal</i> 103, no. 3 (1946): 351–70 | 137 |
| 8. | On the Radiative Equilibrium of a Stellar Atmosphere, XI
<i>The Astrophysical Journal</i> 104, no. 1 (1946): 110–32 | 157 |
| 9. | On the Radiative Equilibrium of a Stellar Atmosphere, XIII
<i>The Astrophysical Journal</i> 105, no. 1 (1947): 151–63 | 180 |
| 10. | On the Radiative Equilibrium of a Stellar Atmosphere, XV
<i>The Astrophysical Journal</i> 105, no. 3 (1947): 424–34 | 193 |
| 11. | The Illumination and Polarization of the Sunlit Sky on Rayleigh
Scattering. With Donna D. Elbert
<i>Transactions of the American Philosophical Society</i> 44, pt. 6
(1954): 643–54 | 204 |

3. Principles of Invariance: The H- and the X- and Y-Functions

- | | | |
|-----|--|-----|
| 12. | On the Radiative Equilibrium of a Stellar Atmosphere, XIV
<i>The Astrophysical Journal</i> 106, no. 1 (1947): 164–203 | 219 |
| 13. | On the Radiative Equilibrium of a Stellar Atmosphere, XVII
<i>The Astrophysical Journal</i> 105, no. 3 (1947): 441–60 | 259 |
| 14. | On the Radiative Equilibrium of a Stellar Atmosphere, XX
<i>The Astrophysical Journal</i> 106, no. 2 (1947): 145–51 | 279 |
| 15. | On the Radiative Equilibrium of a Stellar Atmosphere, XXII
<i>The Astrophysical Journal</i> 107, no. (1948): 48–72 | 286 |
| 16. | On the Radiative Equilibrium of a Stellar Atmosphere, XXII
(concluded)
<i>The Astrophysical Journal</i> 107, no. 2 (1948): 188–215 | 311 |

17. The Angular Distribution of the Radiation at the Interface of Two Adjoining Media 339
Canadian Journal of Physics 29 (1951): 14–20
18. On the Diffuse Reflection of a Pencil of Radiation by a Plane-Parallel Atmosphere 346
Proceedings of the National Academy of Sciences 44, no. 9 (1958): 933–40
19. Diffuse Reflection by a Semi-Infinite Atmosphere. With H. G. Horak 354
The Astrophysical Journal 134, no. 1 (1961): 45–56

4. Miscellaneous Problems

20. The Formation of Absorption Lines in a Moving Atmosphere 369
Reviews of Modern Physics 17, nos. 2–3 (1945): 138–56
21. The Radiative Equilibrium of an Expanding Planetary Nebula. I. Radiation Pressure in Lyman- α 388
The Astrophysical Journal 102, no. 3 (1945): 402–28
22. The Softening of Radiation by Multiple Compton Scattering 415
Proceedings of the Royal Society, A, 192 (1948): 508–18
23. A New Type of Boundary-Value Problem in Hyperbolic Equations 426
Proceedings of the Cambridge Philosophical Society 42, pt. 3 (1946): 250–60

5. Review Articles

24. The Transfer of Radiation in Stellar Atmospheres 439
Bulletin of the American Mathematical Society 53, no. 7 (1947): 641–711
25. Radiative Transfer: A Personal Account 511

P A R T T W O

Investigation on the Negative Ion
of Hydrogen and of Two-Electron Atoms

- | | | |
|-----|---|-----|
| 26. | Some Remarks on the Negative Hydrogen Ion and Its Absorption Coefficient
<i>The Astrophysical Journal</i> 100, no. 2 (1944): 176–80 | 545 |
| 27. | On the Continuous Absorption Coefficient of the Negative Hydrogen Ion
<i>The Astrophysical Journal</i> 102, no. (1945): 223–31 | 550 |
| 28. | On the Continuous Absorption Coefficient of the Negative Hydrogen Ion, II
<i>The Astrophysical Journal</i> 102, no. 3 (1945): 395–401 | 559 |
| 29. | On the Continuous Absorption Coefficient of the Negative Hydrogen Ion, III. With Frances Herman Breen
<i>The Astrophysical Journal</i> 104, no. 3 (1946): 430–45 | 566 |
| 30. | On the Continuous Absorption Coefficient of the Negative Hydrogen Ion, IV
<i>The Astrophysical Journal</i> 128, no. 1 (1958): 114–23 | 582 |
| 31. | On the Continuous Absorption Coefficient of the Negative Hydrogen Ion, V. With Donna D. Elbert
<i>The Astrophysical Journal</i> 128, no. 3 (1958): 633–35 | 592 |
| 32. | The Continuous Spectrum of the Sun and the Stars. With Guido Münch
<i>The Astrophysical Journal</i> 104, no. 3 (1946): 446–57 | 595 |

-
- | | | |
|-----|--|-----|
| 33. | The Story of Two Atoms
<i>The Scientific Monthly</i> 64, no. 4 (1947): 313–21 | 607 |
| 34. | Shift of the 1^1S State of Helium. With Donna Elbert and
G. Herzberg
<i>The Physical Review</i> 91, no. 5 (1953): 1172–73 | 616 |
| 35. | Energies of the Ground States of He, Li^+ and O^{6+} . With
G. Herzberg
<i>The Physical Review</i> 98, no. 4 (1955): 1050–54 | 618 |

*A complete list of publications by S. Chandrasekhar
will appear at the end of the final volume*
