

# Contents

<b>Acknowledgements</b>	vi
<b>Preface</b>	vii
<b>An Introduction</b>	1
<b>Another Introduction</b>	7
<b>Years, Cities, Institutes, . . .</b>	16
<i>Baku to Leningrad</i>	16
<i>Copenhagen with Bohr, and other scientific centres</i>	20
<i>Leningrad to Kharkov</i>	25
<i>Moscow: the Institute of Physical Problems</i>	31
<b>The School of Landau</b>	38
<i>Landau the teacher</i>	38
<i>The theoretical seminar</i>	41
<i>The theoretical minimum</i>	56
<i>The Course of Theoretical Physics</i>	69
<i>The School of Landau</i>	77
<i>Teacher and pupils</i>	85
<b>The Theory of the Superfluidity of Liquid Helium</b>	98
<i>Low temperatures, absolute zero, and quantum mechanics</i>	98
<i>Helium the joker</i>	111
<i>Two heliums or “helium two”</i>	116
<i>Kapitza studies the behaviour of helium II and discovers         superfluidity</i>	126
<i>Landau uses quantum mechanics, the physics of the microworld,         to explain events in the macroworld</i>	138
<i>Landau constructs the energy spectrum of helium II</i>	149
<i>The two-faced Janus, helium II</i>	158
<i>Most surprising of all . . .</i>	166
<i>Theoretician and experimenters</i>	169
<i>Second sound</i>	177
<i>Epilogue to a discovery</i>	183

## Contents

<b>Dau Away From Physics</b>	<b>188</b>
<b>Appendix:</b>	
<i>Landau's plain talk to students of physics</i>	199
<b>Index</b>	<b>215</b>

## Acknowledgements

The publishers acknowledge the use of short extracts from the following works already published in English:

*American Journal of Physics* (by courtesy of Dr J. G. Adashko)

Andronikashvili: *Supplement to 'Helium'*

*Biographical Memoirs of Fellows of the Royal Society*

(by courtesy of Professor P. L. Kapitza and the Royal Society of London)

Dirac: *The Development of the Quantum Theory*

Einstein: *The World As I See It*

Feynman: *The Character of Physical Law* (by courtesy of Professor R. P. Feynman)

Feynman: *Lectures in Physics*

Kapitza: *Collected Papers*

Keesom: *Helium*

Landau: *Collected Papers*

Lifshitz: Lev Davidovich Landau (in *Mechanics*)

Lorentz and Einstein: *The Principles of Relativity Physics Today*

Rogers: *Physics for the Inquiring Mind* (by courtesy of Princeton and Oxford University Presses)

*Soviet Physics JETP*

*Soviet Physics Uspekhi*

*Zeitschrift für Physik*

The translator acknowledges with gratitude the help of Mrs. Dorothy Eagle in writing both the text and the index.
