

CONTENTS

1	The boundary integral equation (boundary element) method in engineering stress analysis <i>R. T. Fenner</i>	1
2	Some boundary integral equation solutions for three-dimensional stress concentration problems <i>M. J. Abdul-Mihsein and R. T. Fenner</i>	8
3	Boundary integral equation evaluation of compression moduli of bonded rubber blocks <i>R. T. Fenner and E. M. Remzi</i>	17
4	Stress concentration factors for cracked C-shaped and ring type test-pieces <i>G. A. Webster, G. C. Klintworth and A. Stacey</i>	24
5	Boundary integral equation stress analysis of a rotating disc with a corner crack <i>C. L. Tan</i>	30
6	Boundary integral equation analysis of axisymmetric thermoelastic problems <i>A. A. Bakr and R. T. Fenner</i>	37
7	Elastic-plastic stress analysis of a cracked thick-walled cylinder <i>C. L. Tan and K. H. Lee</i>	50
8	Applications of the boundary element method to large strain large deformation problems of viscoplasticity <i>A. Chandra and S. Mukherjee</i>	58
