Contents

CHAPTER 1 PARAMETRIC VIBRATIONS

1.1	Introduction	1
1.2	Mechanics of Deterministic Problems	1
1.3	Chaotic Motion	10
1.4	Pseudo-Random Excitation	12
1.5	Crypto-Deterministic Systems	13
1.6	Random Parametric Vibration	14

CHAPTER 2 RANDOM VARIABLES AND STOCHASTIC PROCESSES

2.1	Introduction	19
2.2	Random Variables	19
2.3	Random Processes	24

CHAPTER 3 STOCHASTIC CALCULUS OPERATIONS

3.1	Introduction	53
3.2	Basic Notations of Advanced Calculus	53
3.3	Modes of Stochastic Convergence	54
3.4	Stochastic Limit Theorems	56
3.5	Mean Square Derivative	57
3.6	Riemann and Riemann-Stieltjes Integrals	58
3.7	Lebesgue Integral	61

CHAPTER 4 CALCULUS OF STOCHASTIC PROCESSES

4.1	Introduction	63
4.2	The Brownian Motion Process	63
4.3	The White Noise	66
4.4	The Narrow Band Process	69
4.5	Markov Processes	72
4.6	The Fokker-Planck-Kolmogorov (FPK) Equation	74
4.7	Stochastic Calculus Rules	75

CHAPTER 5 GENERATION OF RESPONSE STATISTICS

5.1 Introduction 91
5.2 The Fokker-Planck-Kolmogorov Equation Approach 91
5.3 The Itô Formula Approach 100
5.4 The Infinite Hierarchy Problem 104

CHAPTER 6 STOCHASTIC AVERAGING METHODS

6.1 Introduction 107
6.2 Basic Concept 108
6.3 Standard Form of Stochastic Averaging 109
6.4 Papanicolaou and Kohler Asymptotic Theorem 112
6.5 Weidenhammer Method 114
6.6 Stochastic Averaging of the Response Energy Envelope 115
6.7 Stochastic Behavior of Linear Systems 120
6.8 Stochastic Behavior of Non-Linear Systems 142
6.9 Second Order Averaging 149

CHAPTER 7 PARAMETRIC STOCHASTIC STABILITY

7.1 Introduction and Historical Review 163
7.2 Basic Definitions 172
7.3 Stability of the Moments 177
7.4 Almost Sure Stability Theorems 193

CHAPTER 8 PARAMETRIC RANDOM RESPONSE

8.1 Introduction and Historical Review 209
8.2 Linear Time-Variant Systems Under Random External Excitation 215
8.3 The Moment Equation Method 221
8.4 Random Response of Helicopter Rotor Blades 229
8.5 Random Forced Response Near Combination Parametric Resonance 250
8.6 Response of Non-Linear Systems 252

CHAPTER 9 EXPERIMENTAL RESULTS

9.1 Introduction 281
9.2 Random Behavior of Liquid Free Surface 282
9.3 Random Behavior of Elastic Columns 285
9.4 Systems with Autoparametric Interaction 288
