Boiling Liquid Superheat

N. H. Afgan

| I. | Introduction 1 |
|------|--|
| II. | Liquid Superheat |
| III. | Survey of Liquid Superheat in Boiling |
| IV. | Experimental Determination of the Temperature Field Around |
| | a Growing Bubble |
| V. | Determination of the Statistical Characteristics of Liquid |
| | Superheat Fluctuation in Pool Boiling |
| VI. | Concluding Remarks 45 |
| | Nomenclature |
| | References |
| | |

Film-Boiling Heat Transfer

E. K. KALININ, I. I. BERLIN, AND V. V. KOSTYUK

| | Introduction | | | | | | | | | | | | 51 |
|------|--------------|--------|------|------|---------------|-----|-----|----------------|---|--|--|--|-----|
| I. | Film Pool Bo | oiling | | | | | | | | | | | 55 |

The Overall Convective Heat Transfer from Smooth Circular Cylinders

VINCENT T. MORGAN

| I. | Introduction | | | | • | | • | • | | | | | | | 199 |
|------|---------------|-----------------------|---------------|------|------|-----|-----|------|-----|---|---|---|---|--|------------|
| II. | Natural Conve | ctio | n | | | | | | | | | | | | 200 |
| III. | Forced Convec | tion | | | | • | | | | | | | | | 212 |
| IV. | Combined Nat | ural | and | l Fo | orce | d C | onv | rect | ion | | | | | | 244 |
| V. | Conclusions . | | | • | • | | | • | | | | • | • | | 250 |
| | Nomenclature | | • | | | | • | • | | • | | | | | 251 |
| | References . | | | | | | | | | | • | • | | | 252 |
| | Note Added in | \Pr | \mathbf{of} | | | | | | | | | | | | 264 |

A General Method of Obtaining Approximate Solutions to Laminar and Turbulent Free Convection Problems

G. D. RAITHBY AND K. G. T. HOLLANDS

| I. | Introduction | | | | | | | | | | | | | | 266 |
|------|----------------|-------|-----|------|------|-----|------|-----|------|------|------|----|------|---|-----|

Heat Transfer in Semitransparent Solids

R. VISKANTA AND E. E. ANDERSON

| I. | Introduction | • | 318 |
|-------|---|---|-----|
| II. | Energy Transfer Processes. | • | 319 |
| III. | Basic Equations of Energy Transfer | • | 324 |
| IV. | Physical Properties | | 352 |
| V. | Radiation Characteristics of Semitransparent Solids . | | 365 |
| VI. | Transient Heat Transfer in Cold Semitransparent Solids | | 375 |
| VII. | Combined Conduction and Radiation Heat Transfer . | | 390 |
| VIII. | Solidification and Melting of Semitransparent Materials | • | 411 |
| | | | |
