

Contents

| | |
|--|-----|
| <i>Introduction</i> | 1 |
| <i>Chapter 1 — Preliminaries</i> | 9 |
| 1. Some Function Spaces and Inequalities | 9 |
| 2. The Vector Space $\mathbf{L}_2(\Omega)$ and Its Decomposition into Orthogonal Subspaces | 24 |
| 3. Riesz' Theorem and the Leray-Schauder Principle | 31 |
| <i>Chapter 2 — The Linearized Stationary Problem</i> | 33 |
| 1. The Case of a Bounded Domain | 35 |
| 2. The Exterior Three-Dimensional Problem | 40 |
| 3. Plane-Parallel Flows | 42 |
| 4. The Spectrum of Linear Problems | 43 |
| 5. The Positivity of the Pressure | 45 |
| <i>Chapter 3 — The Theory of Hydrodynamical Potentials</i> | 47 |
| 1. The Volume Potential | 48 |
| 2. Potentials of Single and Double Layers | 51 |
| 3. Investigation of the Integral Equations | 57 |
| 4. The Green's Function | 62 |
| 5. Investigation of Solutions in $W_2^2(\Omega)$ | 64 |
| <i>Chapter 4 — The Linear Nonstationary Problem</i> | 75 |
| 1. Statement of the Problem. Existence and Uniqueness Theorems | 76 |
| 2. Unbounded Domains, Differential Properties of Generalized Solutions, and Behavior of Generalized Solutions as $t \rightarrow +\infty$ | 81 |
| 3. Expansion in Fourier Series | 86 |
| 4. The Limit of Zero Viscosity | 87 |
| 5. The Cauchy Problem | 88 |
| <i>Chapter 5 — The Nonlinear Stationary Problem</i> | 95 |
| 1. The Case of Homogeneous Boundary Conditions | 95 |
| 2. The Interior Problem with Nonhomogeneous Boundary Conditions .. | 100 |
| 3. Flows in an Unbounded Domain | 104 |
| 4. Effective Estimates of Solutions | 106 |
| 5. The Differential Properties of Generalized Solutions | 110 |
| 6. The Behavior of Solutions as $ x \rightarrow +\infty$ | 117 |

| | |
|--|-----|
| <i>Chapter 6 — The Nonlinear Nonstationary Problem</i> | 121 |
| 1. Statement of the Problem. The Uniqueness Theorem | 121 |
| 2. A Priori Estimates | 126 |
| 3. Existence Theorems | 136 |
| 4. Differential Properties of Generalized Solutions | 143 |
| 5. The Continuous Dependence of the Solutions on the Data of the Problem, and Their Behavior as $t \rightarrow +\infty$ | 144 |
| 6. Other Generalized Solutions of the Problem (1) | 149 |
| 7. Unbounded Domains | 159 |
| 8. The Cauchy Problem for the Generalized Navier-Stokes System..... | 160 |
