

TABLE OF CONTENTS

SUB- AND NEAR-BARRIER FUSION	1
Developments in Sub-Barrier Reactions <i>S. Landowne</i>	3
Multidimensional Tunneling Description of Sub-Barrier Fusion <i>J. Schneider, H.H. Wolter</i>	14
Investigation of Mechanisms Limiting the Near-Barrier Fusion of Massive Nuclei <i>W. Reisdorf</i>	26
Influence of Inelastic Couplings on $^{32}\text{S}+^{24}\text{Mg}$ Sub-Barrier Fusion <i>J. Díaz, J.L. Ferrero, F. Sánchez, B. Bilwes, R. Bilwes</i>	40
Nuclear Deformation Effects in Sub-Barrier Fusion of $^{16}\text{O}+^{147,149}\text{Sm}$ <i>D.E. DiGregorio, M. diTada, D. Abriola, M. Elgue, A. Etchegoyen, M.C. Etchegoyen, J.O. Fernández Niello, A.M.J. Ferrero, S. Gil, A.O. Macchiavelli, A.J. Pacheco, J.E. Testoni, P.R. Silveira Gomes, V.R. Vanin, R. Liguori Neto, E. Crema, R.G. Stokstad</i>	46
Sub-Coulomb Fusion of $^{24,26}\text{Mg}$ with $^{90,92,94,96}\text{Zr}$ <i>R.-D. Ecker, J. Friese, A. Gillitzer, H.-J. Körner, L. Müller, G. Rosner and K. Zeitelhack</i>	51
Influence of Hexadecapole Deformations of the Nuclear Shape on the Enhancement of Sub-Barrier Fusion Cross Sections <i>J. Fernández Niello, C.H. Dasso</i>	56
Sub-Barrier Fusion in the Surface Friction Model <i>P. Fröbrich</i>	61
Spectroscopic Study of Sub-Barrier Quasi-Elastic Nuclear Reactions <i>C.N. Pass, P.M. Evans, A.E. Smith, L. Stuttgé, R.R. Betts, J.S. Lilley, K.A. Connell, J. Simpson, J.R. Smith, A.N. James, P.A. Butler, B.R. Fulton</i>	67
Fusion of ^{14}N , $^{16}\text{O}+^{59}\text{Co}$ at Near-Barrier Energies <i>T.J.P. Penna, P.R.S. Gomes, E.F. Chagas, R. Liguori Neto, J.C. Acquadro, E. Crema, N. Carlim F., M.M. Coimbra</i>	73
Fusion Reactions of $^{58}\text{Ni}+^{90,91,94}\text{Zr}$ Around the Coulomb Barrier <i>F. Scarlassara</i>	79
Nuclear Reactions in Collisions of Very Heavy Ions at Energies Below and Near the Barrier <i>G. Wirth, W. Brüche, Fan Wo, K. Sümmerer, F. Funke, J.V. Kratz, N. Trautmann</i>	84

FUSION AND QUASI-ELASTIC REACTIONS	91
Sub-Barrier Reactions Measured Using a Recoil Mass Separator <i>R.R. Betts</i>	93
How Well Do We Understand Quasi-Elastic Reactions at Energies Close to the Barrier <i>K.E. Rehm</i>	105
Transfer Reactions for the $^{50}\text{Ti}+^{90}\text{Zr}$ System Below the Coulomb Barrier <i>H.J. Kim</i>	117
Correlation Between Transfer and Fusion in Heavy Ion Reactions at the Coulomb Barrier <i>R. Bellwied, J.V. Kratz, W. Reisdorf, D. Schüll, B. Kohlmeyer, R. Künkel</i>	125
Fusion and Transfer Around the Coulomb Barrier of the Systems $^{33}\text{S}+^{90,91,92}\text{Zr}$ <i>L. Corradi, U. Lenz, K.E.G. Löbner, P.R. Pascholati, U. Quade, K. Rudolph, W. Schomburg, S.J. Skorka, H.G. Thies, G. Montagnoli, D.R. Napoli, R. Pengo, F. Scarlassara, A.M. Stefanini, A. Tivelli, S. Beghini, C. Signorini</i>	131
Measurements of 180° Sub-Barrier Transfer Reaction Cross Sections in $\text{S}+\text{Mo}, \text{Nb}$ Systems <i>M.G. Herman, L.L. Lee, Jr., R.J. Vojtech, S.B. Gazes, M. Satteson, J. Boyle</i>	137
Semiclassical Description of Multipair Transfer Processes in Heavy Ion Reactions <i>P. Lotti</i>	143
Transfer and Inelastic Channels Around the Coulomb Barrier <i>A. Rapisarda, M. Baldo</i>	149
SPIN DISTRIBUTION	155
Probing the Spin Distribution in Near-Barrier Fusion Reactions <i>A. Charlop, A. Garcia, S. Gil, S.J. Luke, R. Vandenbosch</i>	157
Intimations of Non-Compound Fission at Near-Barrier Energies <i>H. Rossner, J. Erxmeyer, D. Hilscher, M. Lehmann</i>	167
Sub-Barrier Fusion Reaction of $^{19}\text{F}+^{232}\text{Th}$ <i>Zhang Huanqiao, Lu Jun, Xu Jinchen, Liu Zuhua, Xu Kan, Ruan Ming</i>	173

ELASTIC SCATTERING AND THRESHOLD ANOMALY	177
Algebraic Scattering Theory and Its Application to Heavy Ion Collisions <i>F. Iachello</i>	179
Absorption Under the Coulomb Barrier; Its Importance for the Scattering and Fusion of Heavy Ions at Sub- and Near-Barrier Energies <i>T. Udagawa</i>	191
Channel Coupling Effects in Heavy Ion Elastic Scattering and Sub-Barrier Fusion <i>A.M. Stefanini</i>	204
Reactions in the Collision of Oxygen Ions with Lead at Energies Close to the Coulomb Barrier <i>M.A. Nagarajan</i>	216
Dynamical Aspects of Heavy Ion Reactions - A Microscopic Approach <i>G. Pollaro</i>	229
A Microscopic Nucleus-Nucleus Potential <i>M.V. Andrés, E.G. Lanza</i>	243
Fusion and Scattering of Polarized ^{23}Na <i>D. Fick, H. Leucker</i>	250
Threshold Anomalies in the Scattering of Oxygen by ^{208}Pb <i>J.S. Lilley</i>	256
CONCLUDING REMARKS	263
<i>R.A. Broglia</i>	
RECOIL MASS SPECTROMETERS	271
The Design of Recoil Separators <i>H. Wollnik</i>	273
General Properties of Recoil Mass Spectrometers <i>J.D. Larson</i>	282
The Recoil Separator System at GSI - Description, Experiments and Further Plans <i>F.P. Hessberger, G. Münzenberg, P. Armbruster, G. Berthes, W. Faust, S. Hofmann, W. Reisdorf, K.-H. Schmidt, H. Ewald, K. Güttner</i>	289
Developments at the Daresbury Recoil Separator <i>A.N. James</i>	297

The LNL Recoil Mass Spectrometer: First Tests <i>P. Spolaore</i>	305
The Argonne Fragment Mass Analyzer <i>C.N. Davids, J.D. Larson</i>	313
Design of the Large Acceptance Recoil-Nucleus Mass Analyzer LARA <i>W. Wilhelm, T. Faestermann, H.-J Körner</i>	320
List of participants	328
