

CONTENTS

Preface.....	xi
<i>Introduction</i>	
Selectivity in Elementary Chemical Reactions..... R.B. Bernstein	1
<i>Specificity of Reagent States in Chemical Reactions</i>	
Laser Studies on the Selectivity of Elementary Chemical Reactions: Products, Energy, Orientation..... J. Wolfrum	23
Rotational and Steric Effects in Three Centre Reactions..... W. Grote, M. Hoffmeister, R. Schleysing, H. Zerhau-Dreihöfer and H.J. Loesch	47
Selectivity of Translational Excitation in Reactive Collisions. The Alkaline plus Alkyl Halide Reaction Family..... A. Gonzalez Urefia	79
The Effect of Changing Reagent Translation on Reaction Dynamics: $F + CF_3I \rightarrow IF + CF_3$ M. Trautmann, K. Wagemann, J. Wanner and X.K. Zeng	95
Internal Energy Distributions in AIO given by the Reactions of Aluminium Atoms with Several Oxidant Molecules..... M. Costes, C. Naulin, G. Dorthe and G. Nouchi	105
The Effect of Electronic Excitation in the Reactions of Oxygen Atoms with Simple Hydride Molecules..... J.J. Sloan, E.J. Kruus and B.I. Niefer	117
Laser Studies of Reaction Dynamics: The $Ca^* + HF \rightarrow CaF(X^2\Sigma^+,v) + H$ and $Ca^* + SF_6 \rightarrow CaF(X^2\Sigma^+,v) + SF_5$ Reactions..... F. Engelke and K.H. Meiwes-Broer	135
<i>Spin-Orbit Effects in Chemical Reactions</i>	
Spin-Orbit Effects in Chemical Reactions..... P.J. Dagdigian	147
Open Shell Atomic Beam Scattering and the Spin Orbit Dependence of Potential Energy Surfaces..... V. Aquilanti, R. Candori, G. Liuti and F. Pirani	179

Orientation and Alignment in Chemical Reactions

Reactive Scattering with Oriented Molecules: Selectivity in the Ba + N ₂ O → BaO* + N ₂ Reaction.....	195
H. Jalink, M.H.M. Janssen, M. Geijsberts, S. Stolte, D.H. Parker and J.Z.W. Wang	
Product Alignment in Reactive, Inelastic and Half-Collisions.....	221
J.P. Simons	
Alignment Effects in Electronic Energy Transfer and Reactive Events.....	245
S.R. Leone	
Fundamental Considerations in the Study of Inelastic and Reactive Collisions Involving Atoms in ¹ P Electronic States.....	265
M.H. Alexander and B. Pouilly	
Ionizing Collisions of Fast K Atoms with Oriented Symmetric Top Molecules: Preliminary Results.....	307
H.S. Carman, L.F. Phillips and P.R. Brooks	
Saturation in Laser-Induced Fluorescence: Detection of Nascent Product Rotational Angular Momentum Alignment.....	311
M.H.M. Janssen, M.A. Quesada, D.H. Parker and S. Stolte	
Investigation of the Orientation Dependence of the F + H ₂ Reaction Using Scaled Barrier Functions in the Angle-Dependent Line-of-Centres Model.....	323
J.N.L. Connor and W. Jakubetz	
<i>Reactions of van der Waals Complexes and Clusters</i>	
Chemistry and van der Waals Complexes.....	341
C. Jouvet and M. Boivineau	
A Theoretical Study of the Oriented Reaction HBr-CO ₂ + hv → OH + CO + Br.....	353
G.C. Schatz and M.S. Fitzcharles	
Reactions of Molecular Ions in Association with Inert Gas Clusters.....	365
A.J. Stace and D.M. Bernard	
<i>Accuracy and Availability of Potential Energy Surfaces</i>	
Accuracy and Availability of Potential Energy Surfaces.....	373
J.N. Murrell	
The Calculation of Potential Energy Surfaces for Reactive Systems.....	379
D.M. Hirst	
Electronic Deexcitation of OH(A ² Σ ⁺) with CO(X ¹ Σ ⁺): An Ab Initio Study.....	393
A. Vegiri, S.C. Farantos, P. Papagiannakopoulos and C. Fotakis	

Direct Use of the Diatomics-in-Molecules Method in Large Systems and in Dynamical Calculations.....	403
P.J. Kuntz	
Spin-Orbit Interaction on Potential Energy Surfaces Involving Halogen Atoms.....	417
N.C. Firth and R. Grice	
<i>Multiple Pathways in Chemical Reactions</i>	
Branching Ratios in Chemical Reactions.....	427
Ch. Ottinger	
The M + X ₂ Reactions: Paradigms of Selectivity and Specificity in Electronic Multi-Channel Reactions.....	457
M. Menzinger	
<i>Applied Aspects of Chemical Selectivity</i>	
The Role of Selective Chemical Reactions in Laser Technology.....	481
J.J. Ewing	
State Selective Chemiluminescent Reactions for Chemical Laser Applications.....	497
S.J. Davis and A.M. Woodward	
The Characterisation of the Mechanism of IF(B) Production in Fluorine / Iodide Systems.....	515
D. Raybone, T.M. Watkinson and J.C. Whitehead	
IF(A-X,B-X) Chemiluminescence of Fluorine-Iodide Systems in a Crossed Molecular Beam Experiment.....	525
M. Trautmann, T. Trickl and J. Wanner	
Unexpected Properties of Atmospheric Reactions.....	531
B.A. Thrush	
State Selectivity in Light Emission from Flames.....	543
D.R. Crosley, K.J. Rensberger and R.A. Copeland	
<i>Conclusion</i>	
Concluding Remarks.....	555
R.J. Donovan	
Organising Committee.....	561
List of Participants.....	563
Index.....	565
