

TABLE OF CONTENTS

INTRODUCTION	1
1. Energies of γ -ray and KX-ray emission	2
2. Absolute γ -ray yields	2
3. Absolute KX-ray yields	9
4. Exposure rate constants of radioactive nuclides	12
5. Degree of equilibrium of the daughter nuclide	14
6. Radioactive chains	14
References	18
TABLE 1. Gamma- and KX-ray emissions of radioactive nuclides	20
TABLE 2. Energies of γ -rays E_γ in MeV and their relative intensities for some radionuclides with little-studied transformation schemes	364
List of references	384
TABLE 3. Radioactive chains	400
List of references	472
PAGE INDEX OF ELEMENTS	482
