(* Speaker)

PREFACE	ix
---------------	----

Session I, Monday Morning, July 23, 9.30–11.30

Chairman: Shigeki Suwa (KEK)

Scientific Secretary: Kenzo Nakamura (Univ. of Tokyo)

a. Bubble Chamber Data from NAL	
T. Ferbel (Univ. of Rochester)	3
b. Review of Counter Experiments at INS	
K. Kondo (INS)	38
Comment K. Miyake (Kyoto Univ.)	64

Session II, Afternoon, July 23, 13.00–15.00

Chairman: Tadao Fujii (Univ. of Tokyo)

Scientific Secretary: Takeo Matsuoka (Nagoya Univ.)

a. Recent Results from European High Energy Accelerators	
D. R. O. Morrison (CERN)	67
b. A Survey of Bubble Chamber Physics in Japan	
K. Takahashi (KEK)	135

Session III, Afternoon, July 23, 15.30–17.00

Chairman: Kozo Miyake (Kyoto Univ.)

Scientific Secretary: Akihiro Maki (KEK)

a. Present Status and Future Plan of KEK Proton Synchrotron	
T. Nishikawa (KEK)	157

Session IV, Tuesday Morning, July 24, 9.30–11.30

Chairman: Tsuneyuki Kotani (Osaka Univ.)

Scientific Secretary: Tuneyoshi Kamae (Univ. of Tokyo)

- a. The Present Status of NAL Accelerator
and the Internal Target Experiments
R. Yamada (NAL) 171
- b. Spin-Parity Analysis of the B Meson
S. U. Chung (BNL)* et al. 184
- c. Peripheral Orbit Model
Y. Hara*, T. Kuroda and Y. Takaiwa (Tokyo Univ. of Educ.)... 200
- d. A Study of Duality of the $\pi\pi$ Scattering Amplitude
A. Ukawa*, M. Fukugita and Y. Oyanagi (Univ. of Tokyo) 210
Comment T. Shimada (Univ. of Tokyo) 216

Session V, Afternoon, July 24, 13.00–15.00

Chairman: Gyo Takeda (Tohoku Univ.)

Scientific Secretary: Satoru Saito (Tokyo Metropolitan Univ.)

- a. Models Concerning the Chemical Structure of Hadrons
Y. Nambu (Univ. of Chicago) 221
- b. Realistic Theory of Relativistic String and
Super-Wave Equation
T. Takabayashi (Nagoya Univ.) 237

Session VI, Afternoon, July 24, 15.30–17.15

Chairman: Osamu Hara (Nihon Univ.)

Scientific Secretary: Akira Niegawa (Osaka City Univ.)

- a. Electromagnetic Interaction in the String Model
T. Gotō (Nihon Univ.) 275
- b. Visual Survey of Shape and Structure of Dual
Resonance Particles
S. Matsuda (Kyoto Univ.) 283
- c. Properties of Unnatural Parity Meson Trajectories
M. Bando (Kyoto Univ.) 297

Session VII, Wednesday Morning, July 25, 9.30–11.30

Chairman: Masakuni Ida (RIFP)

Scientific Secretary: Naoaki Horikawa (Nagoya Univ.)

- a. Crossing Invariant Solution of Baryon Exchange
Degeneracy and Reggeon F/D Ratios
T. Eguchi (Univ. of Tokyo) 315

b. An SU(3)-Symmetric Dual Model for Meson-Baryon Scattering Based on Crossing Invariance	
K. Igi (Univ. of Tokyo)	323
c. The Contribution of Polarization Experiments to the Determination of the Elastic Pion-Nucleon Scattering Amplitudes	
L. Van Rossum (CEN, Saclay)	338

Session VIII, Afternoon, July 25, 13.00–14.45

Chairman: Ken Kawarabayashi (Univ. of Tokyo)
Scientific Secretary: Makoto Kobayashi (Kyoto Univ.)

a. Hadron Reactions and Urbaryon Rearrangement	
M. Imachi* (Kyushu Univ.), et al.	361
b. Universal Urbaryon Rearrangement Interaction	
T. Matsuoka (Nagoya Univ.)	383
c. High Energy Hadron Collisions and Hadron Structure	
M. Kuroda (Univ. of Tokyo)	391

Session IX, Thursday Morning, July 26, 9.30–11.30

Chairman: Yoshio Ohnuki (Nagoya Univ.)
Scientific Secretary: Yoshio Sumi (Hiroshima Univ.)

a. Multiparticle Productions and Urbaryon Lines	
K. Kinoshita (Kyushu Univ.)	403
Comment T. Sasaki (Univ. of Tokyo)	423
b. On a Multiplicity Distribution Model in High- Energy Hadronic Collisions	
K. Yokoyama*, H. Minakata (Hiroshima Univ.) and M. Namiki (Waseda Univ.)	424
c. Multiparticle Spectrometers, Some Recent Results and Future Prospects	
W. P. Trower (Virginia Polytech. Inst. and St. Univ.)	430

Session X, Afternoon, July 26, 13.00–15.00

Chairman: Hironari Miyazawa (Univ. of Tokyo)
Scientific Secretary: Akio Hosoya (Osaka Univ.)

a. Geometrical Description of the Structure of the Hadrons	
C. N. Yang (SUNY, Stony Brook)	433 (629)

b. The Inclusive K/π Production Ratio in the Central Region	
S. Yazaki (Univ. of Tokyo)	434
c. A Possible Explanation of Inclusive Spectra at Large Transverse Momentum	
S. Sakai (Tokyo Univ. of Education)	439

Session XI, Afternoon, July 26, 15.30–17.15

Chairman: Ziro Maki (RIFP)

Scientific Secretary: Tadashi Watanabe (Kobe Univ.)

a. Deep Inelastic Lepton Scattering Experiments at NAL	
K. W. Chen (Michigan St. Univ.)	449
b. Short-Distance Singularities on the Light Cone	
W. C. Ng (SUNY, Stony Brook)	490
c. Scaling Law and Mass Singularity in Renormalizable Quantum Field Theory	
Y. Shimizu* and H. Sugawara (INS)	506

Session XII, Friday Morning, July 27, 9.30–11.00

Chairman: Susumu Kamefuchi (Tokyo Univ. of Education)

Scientific Secretary: Tsunehiro Kobayashi (Tokyo Univ. of Education)

a. The Parton Model and e^+e^- Colliding Beam Experiments	
A. I. Sanda (NAL)	517
b. Crewther's Constraint on Anomalies and Divergence of Radiative Correction to $\pi_{\ell 2}$ Decay	
M. Yamada*, N. Nakazawa and T. Shimada (Univ. of Tokyo) ...	533
c. Asymptotic $SU(3)$ and Level Realization of $SU(3)$ in Chiral $SU(3) \otimes SU(3)$ Charge Algebra	
S. Oneda (Univ. of Maryland)	538

Session XIII, Afternoon, July 27, 12.30–15.00

Chairman: Kazuhiko Nishijima (Univ. of Tokyo)

Scientific Secretary: Hikaru Sato (Univ. of Tokyo)

a. Status of Gauge Theories of Weak Interactions	
B.W. Lee (SUNY, Stony Brook)	561
b. Indefinite-Metric Quantum Field Theory with Spontaneously Broken Gauge Invariance	
N. Nakanishi (RIMS)	578

Extra Session, Afternoon, July 27, 15:30–17:30	
Chairman: Yoichiro Nambu (Univ. of Chicago)	
Scientific Secretary: Masao Yamada (Univ. of Tokyo)	
a. Results on Neutral Associated Production and Plan for BNL Multiparticle Spectrometer Project —Our Spectrometer Program, Past and Future— S. Ozaki (BNL)	595
LIST OF PARTICIPANTS	635
