PART IV. BINDING ENERGIES AND ELASTIC SCATTERING INVOLVING LIGHT NUCLEI AT LOW ENERGIES

SESSION 1: *Chairman*—Professor J. M. Blatt

	PAGE
Theoretical Aspects of the Three-Body Problem at Energies below 50 MeV by H. S. W. MASSEY	345
Recent Efforts at Los Alamos to Integrate the n - d Scattering Equations Exactly Numerically by G. BAKER, J. GAMMEL and J. WILLS	357
Scattering and Polarization of 3.27 MeV Neutrons by Deuterons by M. BRÜLLMAN, H.-J. GERBER, D. MEIER and P. SCHERRER	359
Polarization in Proton-Deuteron Scattering by S. M. SHAFROTH, R. CHALMERS, E. N. STRAIT and R. E. SEGEL	365

SESSION 2: *Chairman*—Dr. J. L. Gammel

Upper Bounds on Scattering Lengths by L. SPRUCH and L. ROSENBERG	375
n - d Scattering Lengths by S. I. RUBINOW and L. SARTORI	385
On the Scattering of Neutrons with Deuterons by G. SKORNYAKOV	389
The Ground State of the Triton by G. DERRICK and J. M. BLATT	395
Alpha-particle S-State Binding Energy by L. COHEN and J. B. WILLIS	399
Ground State Energy of H^3 , He^3 and He^4 by H. J. MANG, W. WILD and F. BECK	403

SESSION 3: *Chairman*—Professor H. S. W. Massey

The Elastic Scattering of Nucleons by He^4 Nuclei by P. G. BURKE	413
Doublet Splitting in n - He^4 Scattering by the Pion-Theoretical Potential by S. NAGATA, T. SASAKAWA, T. SAWADA and R. TAMAGAKI	435
Feasibility of Spin Correlation Measurements in Elastic Scattering Experiments Involving Few Nucleons by J. L. GAMMEL	451
Spin Interactions in T- α and D- α Scattering Processes by J. E. BROLLEY, JR., L. STEWART and L. ROSEN	455
Polarization Measurements in p - α Elastic Scattering by MARY J. SCOTT	461

	PAGE
SESSION 4: <i>Chairman</i> —Professor D. H. Wilkinson	
Experimental Data on Low-Energy Neutron Scattering at Los Alamos by L. CRANBERG	473
Los Alamos Experiments on Charged Particle Reactions Involving Light Nuclei by L. ROSEN	481
The Theory of Neutron-Triton Scattering by S. HOCHBERG, D. J. NEWMAN and H. H. ROBERTSON	497
Scattering of Protons by He^3 at 9.6, 8.6, 7.9, 6.8 and 5.5 MeV by K. P. ARTEMOV, S. P. KALININ and L. N. SAMOILOV	511
The Polarization of the Neutrons and Protons from the Reactions $\text{T}(p, n)\text{He}^3$ and $\text{He}^3(n, p)\text{T}$ by K. P. ARTEMOV, N. A. VLASOV and L. N. SAMOILOV	517

PART V. REACTIONS INVOLVING FOUR OR MORE THAN FOUR NUCLEONS

SESSION 1: *Chairman*—Professor K. A. Brueckner

The Interaction of Nucleons and Deuterons with Tritons and He^3 and Related Reactions by B. H. BRANSDEN	527
Reactions Involving Systems Containing Four Nucleons by J. E. YOUNG and W. M. VISSCHER	553
The Elastic Scattering of He^3 by He^3 by B. H. BRANSDEN and R. A. H. HAMILTON	555
Elastic Scattering Involving Light Nuclei by W. LASKAR, C. TATE and P. G. BURKE	559
The Use of Polarized Deuterons in the D-D Reaction by J. R. ROOK and L. J. B. GOLDFARB	571
The $\text{T}(d, n)\text{He}^4$ Reaction as an S-wave Detector of Deuteron Polarization and 14 MeV Polarized Neutron Source by H. B. WILLARD, A. GALONSKY and T. A. WELTON	577

SESSION 2: *Chairman*—Professor J. H. Williams

The $\text{T}(p, n)\text{He}^3$ Reaction and its Inverse by J. D. SEAGRAVE	583
Light Particle Reactions by J. D. ANDERSON, C. C. GARDNER, M. D. GOLDBERG, J. M. LEBLANC, J. W. MCCLURE, M. P. NAKADA and C. WONG	595
The Scattering of He^3 Particles by Protons, Deuterium, He^3 and He^4 by J. S. C. MCKEE	609
Scattering of Deuterons from Tritium and He^3 at Low Energies by I. G. BALASHKO and I. I. BARIT	615
Scattering of Protons from Tritium at Low Energies by I. G. BALASHKO, I. I. BARIT and I. A. GONTCHAROW	619

Contents

vii

PAGE

SESSION 3: *Chairman*—Professor K. J. LeCouteur

Calculation of Binding Energies of Nuclei in the Neighbourhood of 16 Nucleons using the Brueckner Method by V. J. EMERY	627
Hartree-Fock Method for Strongly Interacting Systems by K. A. BRUECKNER, A. SOCHETT and M. ROTENBERG	635
Binding Energy of Be^8 and C^{12} and α - α Scattering by S. J. BIEL, A. C. BUTCHER and J. M. McNAMEE	641

SESSION 4: *Chairman*—Dr. E. H. S. Burhop

Three-Body Model of Li^6 by P. H. WACKMAN and N. AUSTERN	649
Properties of C^{12} and the Effective Two-Nucleon Central Interaction by S. MESHKOV	653

PART VI. PAPERS COMMUNICATED IN THE FORM OF ABSTRACTS AT THE CONFERENCE

Elastic Scattering of Protons by Helium between 9.2 MeV and 14.5 MeV by J. SANADA	663
Proton-Proton and Proton-Deuteron Scattering at 14 MeV by S. KIKUCHI, J. SANADA, S. SUWA, I. HAYASHI, K. NISIMURA and S. FUKUNAGA	669
Spin-Orbit Splitting and Tensor Force by A. ARIMA and T. TERASAWA	671
The Spin-Orbit Coupling and the Tensor Forces in Heavy Nuclei by S. TAKAGI, W. WATARI and M. YASUNO	675
Inelastic Proton-Gamma Angular Correlation for C^{12} at 40 MeV by H. S. ADAMS and N. M. HINTZ	679
Elastic Scattering Angular Distributions of Protons from Li^6 and Li^7 at 40 MeV by S.-W. CHEN and N. M. HINTZ	683
Quasi-Elastic Scattering Inside Light Nuclei at 153 MeV and Proton Binding Energies by T. J. GOODING and H. G. PUGH	685
Scattering of He^3 by Neon by J. CATALÁ, A. GARCÍA RODRÍGUEZ and J. AGUILAR	691
The Polarization of Nucleons by Deuterons by K. A. SMITH and M. PESHKIN	695
List of Participants at the Conference	697
Subject Index	705
