

CONTENTS

| | |
|--|-----|
| Quantization of Systems with Constraints <i>Marc Henneaux</i> | 1 |
| An Introduction to String Theory <i>P. West</i> | 40 |
| Heterotic String Construction <i>A. N. Schellekens</i> | 175 |
| An Introduction to Conformal Field Theory in Two Dimensions and String Theory <i>Spenta R. Wadia</i> | 229 |
| Strings and the Renormalization Group <i>Sumit R. Das</i> | 275 |
| Effective Lagrangian from Superstrings <i>Mirjam Cvetič</i> | 313 |
| Accidental Symmetries and the Effective Lagrangian of String Theory <i>Burt A. Ovrut</i> | 332 |
| Effective Nonrenormalizable Theories at One Loop <i>Mary K. Gaillard</i> | 356 |
| Quark-Lepton Physics from Superstring Models Compactified on Calabi-Yau Manifolds <i>Rabindra N. Mohapatra</i> | 406 |
| The State of the Universe <i>B. J. Carr</i> | 465 |
| Phenomenology in High Energy Physics | |
| Neutral Weak Current Phenomena <i>Klaus Winter</i> | 502 |

| | |
|--|------------|
| Experimental Determination of the Cabibbo-Kobayashi-Maskawa Matrix Elements | 523 |
| <i>Klaus R. Schubert</i> | |
| Status of CP Violation | 554 |
| <i>W. Grimus</i> | |
| Supersymmetry Signals at Present and Future Colliders | 582 |
| <i>Howard E. Haber</i> | |
| Non-Accelerator Particle Physics | 612 |
| <i>Y. Totsuka</i> | |
| Symmetry Breaking: The Standard Model and Superstrings | 632 |
| <i>Mary K. Gaillard</i> | |
