

CONTENTS

Preface	v
 REPRINTED PAPERS	
i. A Non-Linear Field Theory by T. H. R. Skyrme <i>Proc. R. Soc. London A260</i> , 127-138 (1961)	1
ii. A Unified Field Theory of Mesons and Baryons by T. H. R. Skyrme <i>Nucl. Phys.</i> 31 , 556-569 (1962)	13
1. The Skyrme Soliton: A Review <i>A. P. Balachandran</i>	27
2. Static Properties of Baryons as Chiral Solitons <i>C. R. Nappi</i>	38
3. Model Independent Relations for Baryons as Chiral Solitons <i>G. S. Adkins</i>	47
4. Centrifugal Effects in Skyrmeons <i>E. Braaten</i>	57
5. The N^* (Roper) and the First Monopole Excitation in the Skyrme Model <i>J. A. Parmentola</i>	73
6. Dibaryons in the Skyrme Model <i>F. Lizzi</i>	90
7. Skyrmion Quark Mixing <i>V. P. Nair and V. G. J. Rodgers</i>	97
8. Time Dependences of Skyrmion <i>K. F. Liu and J. S. Zhang</i>	103
9. Skyrmion Phase Shifts <i>J. D. Breit</i>	115
10. Compression Modulus and Breathing Mode of the Skyrmion <i>J. Dey, M. Dey, and J. Le Tourneux</i>	119

11.	Baryon Deformations and Excitations in the Skyrme Model <i>B. Schwesinger and C. Hajduk</i>	129
12.	Fermion Number of the Vacuum <i>M. K. Banerjee</i>	142
13.	One-Loop Corrections to the Friedberg-Lee Nontopological Soliton <i>R. J. Perry</i>	147
14.	Solitons and Chiral Bag Models <i>P. J. Mulders</i>	158
15.	Gluons for All Bags <i>L. Willets, M. Bickeböller, M. C. Birse and H. Marshall</i>	174
16.	Coherent State Description of Nontopological Solitons and Momentum Projection <i>M. C. Birse, E. M. Henley, G. Lübeck and L. Willets</i>	189
17.	The Quark Presence in Nuclei: Dynamics of a Dilute System of Nontopological Solitons <i>C. M. Shakin</i>	210
18.	Nuclear Non-Perturbative Excitations <i>J. Boguta and J. Kunz</i>	220
19.	A Chiral Soliton Bag Model with a Confining Scalar Field <i>R. Seki and S. Ohta</i>	235
20.	Skyrmions and Vector Mesons: A Symmetric Approach <i>D. G. Caldi</i>	257
21.	A Spinor Soliton Bag <i>P. Mathieu</i>	281
22.	Skyrmions and Weak Interactions <i>J. M. Gipson</i>	289
23.	Fermions from Bosons through Effective Lagrangians in QCD <i>G. Bhattacharya and S. Rajeev</i>	299
24.	Skyrmions and QCD <i>E. Witten</i>	306
