

## CONTENTS—VOLUME II

---

### 4

#### ELECTRODYNAMICS I

4-1	Charged Particle Propagation Functions . . . . .	2
4-2	A Magnetic Moment Calculation . . . . .	20
4-3	Photon Propagation Function . . . . .	27
4-4	Form Factors I. Scattering . . . . .	50
4-5	Form Factors II. Single and Double Spectral Forms . . . . .	72
4-6	Form Factors III. Spin $\frac{1}{2}$ . . . . .	89
4-7	Form Factors IV. The Deuteron . . . . .	106
4-8	Scattering of Light by Light I. Low Frequencies . . . . .	123
4-9	Scattering of Light by Light II. Forward Scattering . . . . .	134
4-10	Scattering of Light by Light III. Double Spectral Forms . . . . .	144
4-11	H-Particle Energy Displacements. Nonrelativistic Discussion. . . . .	156
4-12	A Relativistic Scattering Calculation . . . . .	177
4-13	Photon-Charged Particle Scattering . . . . .	188
4-14	Non-Causal Methods . . . . .	218
4-15	H-Particle Energy Displacements. Spin 0 Relativistic Theory . . . . .	239
4-16	H-Particle Energy Displacements. Spin $\frac{1}{2}$ Relativistic Theory I . . . . .	254
4-17	H-Particle Energy Displacements. Spin $\frac{1}{2}$ Relativistic Theory II . . . . .	279

### 5

#### ELECTRODYNAMICS II

5-1	Two-Particle Interactions. Nonrelativistic Discussion . . . . .	299
5-2	Two-Particle Interactions. Relativistic Theory I . . . . .	326
5-3	Two-Particle Interactions. Relativistic Theory II . . . . .	353
5-4	Photon Propagation Function II . . . . .	378
5-5	Positronium. Muonium . . . . .	410
Appendix: How to Read Volume I . . . . .		443
Index . . . . .		447
