

CONTENTS

Foreword

Introduction.....	1
F.A. Gianturco, G. Stefani	

PART I **LOW ENERGY ELECTRON-MOLECULE SCATTERING:**
THE EXPERIMENTAL FINDINGS.

Experimental results in electron-molecule inelastic collision experiments	
M. Tanaka.....	6
Low-energy electron scattering in organic molecules	
M. Allan.....	14
Electron affinities of organic and organometallic compounds determined by means of electron transmission spectroscopy	
A. Modelli, G. Distefano, M. Guerra, D. Jones.....	19
Shape resonances in electron-polyatomic molecules collisions	
M. Tronc, L. Malegat.....	24
Low energy experiments on electron-molecule inelastic collisions and threshold peaks: experimental advances	
H. Ehrhardt, K. Jung, K.H. Kochem, W. Sohn.....	32
Dissociative attachment in polar and highly polar molecules	
J.P. Ziesel.....	39

PART II LOW ENERGY ELECTRON-MOLECULE SCATTERING:
THE THEORETICAL TOOLS.

R-matrix theory of electron-molecule collisions C.J. Noble, P.G. Burke, S. Salvini.....	50
Polarization and correlation effects in low energy electron-molecule collisions B.I. Schneider, L.A. Collins.....	55
The scattering of slow electrons by polyatomic molecules D.G. Thompson, A.K. Jain.....	61
Characterisation of electronuclear correlations in low-energy electron molecule dynamics M. Le Dourneuf, J.M. Launay.....	69
Calculation of effective potentials for the study of shape resonances in open shell diatomics L. Malegat, M. Le Dourneuf, M. Tronc.....	79
Continuum multiple scattering $X\alpha$ calculations of elastic cross sections in electron-molecule scattering J.E. Bloor.....	85
Projection operator calculations for molecular shape resonances in the optical potential approach M. Berman, W. Domcke.....	90
Electron scattering by N_2 : from muffin-tin to MCSCF ² potentials J.R. Rumble.....	94
On the finite volume variational method based on the logarithmic derivative of the wave function G. Raşev.....	98
A theoretical study of the H_2^- system at low energies G.V. Nazaroff.....	103
Dissociative attachment of H_2 and its isotope by low energy electron impact S. Bhattacharyya, L. Chatterjee.....	108
Numerical asymptotic functions in calculations of electron-molecule scattering R.K. Nesbet.....	112

COUPLING NUCLEAR MOTION WITH THE IMPINGING ELECTRON:
 PART III THEORETICAL MODELS.

Resonant and non-resonant couplings to the nuclei in electron-molecule collisions A. Herzenberg.....	118
Non-resonant treatment of associative detachment and dissociative attachment J.P. Gauyacq.....	122
Electron dissociative attachment on HCl molecules D. Teillet-Billy, J.P. Gauyacq.....	126
Resonance-resonance coupling in dissociative electron attachment A.U. Hazi.....	129
Calculation of cross sections for dissociative attachment and vibrational excitation in HCl beyond the local complex potential approximation W. Domeke, C. Mündel.....	136

SCATTERING OF HIGH-ENERGY ELECTRONS BY ATOMS AND
 PART IV MOLECULES: EXPERIMENTAL STUDIES.

Dipolar electron-molecule experiments C.E. Brion.....	142
(e,2e) Chemistry K.T. Leung, C.E. Brion.....	151
Fourier transform of spherically averaged momentum densities M.A. Coplan, D.J. Chornay, J.H. Moore, J.A. Tossell N.S. Chant.....	156
High resolution studies of inner-shell excited states of atoms and molecules by electron impact excitation G.C. King.....	162
K-edge excitation in N ₂ , NO, N ₂ O and BF ₃ studied by angular resolved electron energy-loss spectroscopy R. Camilloni, E. Fainelli, G. Petrocelli, G. Stefani F. Maracci, R. Platania.....	172
Correlation effects in Neon studied by elastic and inelastic high energy electron scattering J.J. McClelland, M. Fink.....	184

Coincidence measurement of the anisotropy of $L_3M_{23}M_{23}$ ($1S_0$) Auger electrons of Argon A. Lahmam-Bennani, G. Stefani, A. Duguet.....	191
--	-----

PART V MOLECULAR EXCITATION BY ELECTRON IMPACT:
THE THEORETICAL TREATMENTS.

Electronic excitation of molecules by electron impact V. McKoy, Mu-Tao Lee.....	196
High energy electron scattering and electron correlation in atoms and molecules R.A. Bonham.....	206
Line-shape analysis of energy-loss spectra and photoelectron spectra I. Shimamura.....	210
Hole localization effects in molecular inner shell excitation T.N. Rescigno, A.E. Orel.....	215
The inadequacy of first order theoretical models for ionisation R.J. Tweed.....	220

PART VI ($e, 2e$) REACTIONS FOR ATOMS AND MOLECULES:
EXPERIMENTS AND THEORETICAL COMPARISONS.

Impulsive ($e, 2e$) experiments: non dipolar form factor G. Stefani.....	226
Multiple scattering approach to the interpretation of ($e, 2e$) experiments C.J. Joachain.....	239
The asymmetric ($e, 2e$) reaction at high energy A. Lahmam-Bennani.....	249
Multiple scattering approach to the ($e, 2e$) reaction of atomic hydrogen B. Lohmann, I.E. McCarthy, E. Weigold.....	254
($e, 2e$) experiments on He in asymmetric conditions at intermediate energy V. Di Martino, R. Fantoni, A. Giardini-Guidoni, R. Tiribelli.....	259

Coincidence measurements in (e,2e) Compton scattering and microcanonical electronic structures C. Tavard, C. Dal Cappello, F. Gasser, M.C. Dal Cappello.....	264
(e,3e) collisions: a prospective study C. Dal Cappello, M.C. Dal Cappello.....	271
Index of Contributors.....	276
Subject index.....	278
