Reports and Discussions

V. AMBARTSUMIAN	The Nuclei of Galaxies and Their Activity	1
	Discussion on the report of V. Ambartsumian	13
J. H. OORT	Some Topics concerning the Structure and Evolution of Galaxies	17
	Discussion on the report of J. H. Oort.	23
L. WOLTJER	The Role of Magnetic Fields and Cosmic Rays	30
	Discussion on the report of L. Woltjer	42
L. SPITZER	Formation of Stars	46
	Discussion on the report of L. Spitzer	61
E. E. SALPETER	Stellar Evolution	71
	Discussion on the report of E. E. Salpeter	83
R. MINKOWSKI	Supernovae	89
	Discussion on the report of R. Minkowski	92
F. HOYLE	Supernovae and Supernovae Remnants.	95
	Discussion on the report of F. Hoyle	104
J. G. BOLTON	Extra-Galactic Radio-Sources	107
	Discussion on the report of J. G. Bolton	117
M. SCHMIDT	Spectroscopic Observations of Extra-Galactic Radio-Sources	130
	Discussion on the report of M. Schmidt	135
G. & M. BURBIDGE	The Mechanisms of Extra-Galactic Radio Sources	137
	Discussions on the report of Mrs. M. Burbidge and G. Burbidge	156
	General Discussion—Introduced by R. Oppenheimer	168
