

Table of Contents

Accretion Disks

Indirect Imaging of Accretion Disks in Binaries _____	<i>K. Horne and T.R. Marsh</i>	1
Spectrum and Polarization of the Continuum from Accretion Disks in Active Galaxies and Quasars _____	<i>W. Webb and M. Malkan</i>	15
Accretion Disks in Low-Mass X-ray Binaries _____	<i>K. O. Mason</i>	29
Theory and Observations of Time-Dependent Accretion Disks _____	<i>F. Verbunt</i>	59
On the Long Term Activity of Pop.I Binary Systems Containing an X-ray Pulsar _____	<i>L. Stella, N.E. White, and R. Rosner</i>	77

Magnetic White Dwarfs

X-ray Properties of Magnetic Cataclysmic Variable Systems _____	<i>M.G. Watson</i>	97
Evolution of Magnetic Cataclysmic Binaries _____	<i>D.Q. Lamb and F. Melia</i>	113
The Evolution of Magnetic Cataclysmic Variables _____	<i>A.R. King</i>	137

Quasi-Periodic Oscillations in Low-Mass X-ray Binaries

Quasi-Periodic Oscillations in Low-Mass X-ray Binaries _____	<i>M. van der Klis</i>	157
Quasi-Periodic Oscillations: Models vs. Observations — a Brief Review _____	<i>W.H.G. Lewin</i>	177

Black Holes

The X-ray Variability of Active Galactic Nuclei _____	<i>R.S. Warwick</i>	195
Black Holes in X-ray Binaries _____	<i>J.E. McClintock</i>	211
Variability in Accreting Black Holes _____	<i>A.C. Fabian</i>	229
Rapid X-ray Variability in Radio-Quiet AGN: A Probe of the Innermost Regions of the Active Nucleus _____	<i>P. Barr</i>	243

X-ray Transfer

Iron Lines from Galactic and Extragalactic X-ray Sources _____	<i>K. Makishima</i>	249
Discrete Spectra of Accreting Compact Sources _____	<i>T.R. Kallman</i>	269

Jets and Winds

Radio Emission from X-ray Binaries and the Proto-type Jets of SS 433 _____	<i>R.M. Hjellming and K.J. Johnston</i>	287
X-ray Observations of the Jets in SS 433 _____	<i>G.C. Stewart and M.G. Watson</i>	303
Cygnus X-3 _____	<i>L.A. Molnar</i>	313
More Surprises from NGC 4151 _____	<i>M.V. Penston</i>	331
The Promise of High Resolution UV Spectroscopy for understanding the Winds of Cataclysmic Variable Stars _____	<i>F.A. Córdoba</i>	339
BL Lacertae Objects: Accretion, Jets, and Winds _____	<i>C.M. Urry</i>	357

Spectral Formation

X-ray Spectral Formation in Low Mass X-ray Binaries _____ *N.E. White* 377
Continuum Features in Quasars _____ *M. Elvis, B. Czerny, and B.J. Wilkes* 389
The Soft X-ray Spectra of Active Galactic Nuclei _____ *G. Branduardi-Raymont* 407

Subject Index 415
Source Index..... 419
