

CONTENTS OF VOLUME 1

Contents of Volume 2 . . . . . ix

PART I: INTRODUCTION AND BACKGROUND

Fundamentals of Superconductivity . . . . . 5  
E. A. Edelsack

Phenomenological Theories of Superconductivity . . . . . 25  
W. D. Gregory

Elements of the Theory of Superconductivity . . . . . 71  
W. N. Mathews Jr.

Josephson Effect in a Superconducting Ring . . . . . 149  
F. Bloch

Time-Dependent Superconductivity . . . . . 163  
D. J. Scalapino

Refrigeration for Superconducting Devices . . . . . 185  
Robert W. Stuart

PART II: SUPERCONDUCTING MATERIALS

Experimental Aspects of Superconductivity:  
Editors' Note . . . . . 209

Superconductivity in Very Pure Metals . . . . . 211  
W. D. Gregory

$T_c$ 's -- The High and Low of It . . . . . 263  
Bernd T. Matthias

The Metallurgy of Superconductors . . . . .	289
Robert M. Rose	
Superconducting Intermetallic Compounds -	
The A15 Story . . . . .	333
Robert A. Hein	
Theory of Superconducting Semiconductors . . . . .	373
C. S. Koonce	
Enhancement Effects: Theory . . . . .	389
C. S. Koonce	
Enhancement Effects . . . . .	405
J. F. Schooley	
Author Index . . . . .	xi
Subject Index . . . . .	xxxiii
