

## CONTENTS

Preface .....	9
<u>A.A.Maradudin</u> - Surface Waves .....	11
<u>M.I.Borissov, L.L.Konstantinov</u> - Surface Acoustic Waves in Solid Surface Investigations .....	400
<u>V.L.Ginzburg</u> - Transition Radiation and Transition Scat- tering .....	439
<u>V.L.Ginzburg</u> - The Problem of High-Temperature Supercon- ductivity .....	440
<u>F.Koch</u> - The Physics of Surface Charge Layers .....	451
<u>Yu.P.Monarkha, V.B.Shikin</u> - Surface Electron States above Helium .....	538
<u>V.L.Pokrovsky</u> - Two-Dimensional Crystals: Structure, Physi- cal Properties, Phase Diagram .....	584
<u>I.P.Ipatova</u> - Surface Reconstruction and the Symmetry Change at the Surface Second-Order Phase Transitions ...	610
<u>Y.C.Cheng</u> - Modern Problems of the Si/SiO <sub>2</sub> Interface .....	620
<u>N.Velchev, I.Nachev</u> - Surface Transport Phenomena .....	655
<u>V.M.Agranovich</u> - Crystal Optics of Surface Polaritons and Properties of Surface .....	693
<u>G.N.Zhizhin</u> - The Surface and Transition Layer's Studies by Means of Surface Polaritons and Plasmons Spectro- scopy .....	712
<u>S.Y.Tong</u> - Review of Surface Structural Techniques: Low- Energy Electron Diffraction and Angle-Resolved Photo- emission Spectroscopy .....	726
<u>J.Gyulai</u> - Rutherford Backscattering Spectrometry .....	745
<u>I.Stensgaard</u> - Surface-Structure Analysis by High-Energy Ion Scattering .....	780
<u>D.S.Karpuzov</u> - Surface Analysis by Low-Energy Ion Scattering	793
<u>N.Pashov</u> - Electron Microscope Methods in the Study of Surfaces .....	836
<u>B.A.Orlowski</u> - Electron States on Cleaved Surfaces of CdF <sub>2</sub> and Cd <sub>2</sub> Hg <sub>8</sub> Te Crystals (UPS and YPS Experiment) .....	848
<u>L.Surnev</u> - Application of Auger Electron Spectroscopy and Electron Energy Loss Spectroscopy in the Characterization of Chemisorption States .....	857

<u>S.Kanev, G.Popkirov</u> - Photocatalytic Phenomena on the Surface of Solids .....	869
<u>B.M.Vul, E.I.Zavaritskaya</u> - Electrical Conductivity of Ger- manium Clean Surfaces and Interfaces .....	893
<u>J.Rogowska</u> - Theory of Physical Adsorption .....	908
