Preface	۷
INTRODUCTORY LECTURES	
R. M. Latanision Surface Effects in Crystal Plasticity: General Overview	3
F.R.N. Nabarro Surface Effects in Crystal Plasticity: Overview from The Crystal Plasticity Standpoint	49
T. E. Fischer Surface Effects in Crystal Plasticity: Overview from A Surface Science Point of View	127
TUTORIAL LECTURES ON SURFACE SCIENCE	
C. B. Duke Atomic Geometry and Electronic Structure of Solid Surfaces	165
H. C. Gatos and Jacek Lagowski Space Charge Layers	221
W. Henry Weinberg Surface Chemistry I: Multi-Component Systems	267
J. H. van der Merwe Surface Chemistry II: Overlayers (New Phases)	301
TUTORIAL LECTURES ON CRYSTAL PLASTICITY	
R. Bullough Microplasticity	321
A. S. Argon Inelastic Deformation and Fracture of Crystalline Solids	383

WORKSHOP SESSION 1: SURFACE EFFECTS IN UNIAXIAL TENSION AND FATIGUE	
Z. S. Basinski Survey Lecture	433
Contributed Papers:	
D. J. Duquette, H. Hahn, and P. Andresen The Role of Surface-Environment Interactions on Cyclic Deformation	469
H. Mughrabi A Surface Effect Specific to Cyclically Deformed BCC Metals - The Surface Rough- ening of Polycrystalline α-Iron During Cyclic Deformation	479
0. Lohne Dislocation Mobility in the Surface Layer	487
S. Kitajima Role of Free Surface in Yielding and Easy Glide Deformations of Highly Perfect Copper Crystals	495
Ch. Schwink and H. Neuhaüser Microcinematographic Studies of the Development of Slip Bands	505
J. T. Fourie The Plastic Flow Stress in the Core and Surface Regions of Deformed Crystals	511
J. T. Fourie An Analysis of the Unloading Yield Point With Reference to the Pre-Macro-Yield Region	527
H. Mughrabi New Studies of Surface Effects in Deformed Copper Single Crystals	533
S. Weissmann Influence of Surface Plasticity on the Deformation Behavior and Fracture Mode of Silicon	543

	Page
E. Kröner On the Residual Stresses in Plastically Deformed Polycrystals and Composites	551
Workshop Summary	557
WORKSHOP SESSION 2: THE INFLUENCE OF SURFACE FILMS ON MECHANICAL PROPERTIES	
H.G.F. Wilsdorf and G. E. Ruddle Survey Lecture	565
Contributed Papers:	
R. M. Johnson Surface Damage Resulting from Film Cracking	593
V. K. Sethi and R. Gibala Effect of Anodic Oxide Films on Low Temperature Mechanical Behavior of Niobium Single Crystals	599
I. G. Greenfield and A. Purohit The Effect of Near-Surface Diffusion Layers on Fatigue of Copper	609
Workshop Summary	621
WORKSHOP SESSION 3: CHEMISORPTION-INDUCED VARIATIONS IN THE PLASTICITY AND FRACTURE OF NONMETALS	
N. H. Macmillan Survey Lecture	629
Contributed Papers:	
R. F. Firestone and A. H. Heuer Surface Effects on the Yield Point of Sapphire	663
C. A. Brookes Microdeformation of Hard Non-Metallic Crystals By Softer Indenters and Sliders	671
W. Schröter and P. Haasen The Chemomechanical Effect in Semiconductors	681

Workshop Summary	689
WORKSHOP SESSION 4: ENVIRONMENTALLY-INDUCED LOWERING OF SURFACE ENERGY AND THE MECHANICAL BEHAVIOR OF SOLIDS	
E. D. Shchukin Survey Lecture	701
Contributed Papers:	
E. M. Gutman Chemical-Induced Variations in the Plasticity and Fracture of Metals and Minerals - Chemomechanical Effect	737
Workshop Summary	745
WORKSHOP SESSION 5: SURFACE EFFECTS IN DISSOLUTION- RELATED EMBRITTLEMENT PHENOMENA	
HJ. Engell Survey Lecture	749
Contributed Papers:	
R. E. Cuthrell Mechanical Behavior of Oxide Free Stain- less Steel Surfaces in A Low Pressure Hydrogen Environment	773
W. Frank and L. Graf A Unifying Model of Intergranular Corrosion, Intergranular Penetration of Liquid Metals, Stress Corrosion Cracking and Liquid Metal Embrittlement of Substitutional Solid Solutions	781
W. R. Tyson Cleavage vs. Shear At Crack Tips in Metal Crystals	793
D. L. Davidson Nondestructive, Near-Surface Plasticity Determination by Electron Channeling	801
Z. Szklarska-Smialowska Correlation Between Pitting and Stress	811

	Page
Corrosion Cracking of Stainless Steels in Chloride Solutions	
R. W. Staehle What I Know and Would Like to Know Concerning Environmental Effects on the Mechanical Properties of Metals	819
Workshop Summary	827
APPLICATIONS OF SURFACE EFFECTS IN CRYSTAL PLASTICITY TO TECHNOLOGY	
A.R.C. Westwood and J. J. Mills Survey Lecture: Applications of Chemomechanical Effects to Fracture-Dependent Industrial Processe	835 s
N. V. Pertsov Environmentally-Assisted Hard Materials Machining	863
C. M. Preece Erosion of Metals and Alloys	889
I. R. Kramer Enhancement of Fatigue, Creep, and Stress Corrosion Resistance By Surface Treatments	911
J. F. Prins Microcutting: A Method to Study Surface Plasticity at Very High Strain Rates	925
SUMMARY SESSION	
F. C. Frank Surface Effects in Crystal Plasticity: Concluding Summary Lecture	933
LIST OF PARTICIPANTS	939
