Contents

Introduction xiii
H. Kleinpoppen and J. F. Williams

1. Theory of $(e, 2e)$ Experiments 1
I. E. McCarthy

2. Impulsive $(e, 2e)$ Experiments: A Tool to Test Different Ionization Theories and Electronic Structure of Atoms and Molecules 13
A. Giardini-Guidoni, R. Camilloni, and G. Stefani

3. Low-Energy Electron Impact Ionization with Completely Determined Kinematics 41
H. Ehrhardt, K. Jung, and E. Schubert

4. Coincidence Investigations of Electron–Hydrogen Collisions 59
Erich Weigold

5. Correlation in Multiple Escape near Threshold 67
H. Klar

6. Interference Effects in the Multiphoton Ionization of Atoms 79
K. C. Mathur

7. Correlation in Electron–Atom Excitation 85
D. E. Golden and N. C. Steph

8. Angular Correlation Parameters for Excitation of the 2^1P State of Helium and the $2p$ State of Atomic Hydrogen 97
M. T. Hollywood, A. Crowe, and J. F. Williams

9. New Aspects in Electron–Photon Coincidence Experiments 109
H. Kleinpoppen and I. McGregor

10. The Possibility of a Complete Determination of Scattering Amplitudes for $S \rightarrow D$ Excitation by Electron–Photon Coincidence Measurements . . . 121
Gerard Nienhuis

11. Threshold and Pseudothreshold Excitation of Molecules by Electron Impact 133
K. Blum

12. Polarization Correlation Measurements in Ar and H_2 145
J. W. McConkey and I. C. Malcolm

13. Effect of Optical Potentials on Angular Correlation Parameters 167
D. H. Madison

14. The Calculation of Orientation and Alignment Parameters for the Electron Impact Excitation of the 3^1P State of He in the First-Order Many-Body Theory 179
G. D. Meneses and Gy. Csanak

15. Electron–Photon Correlations in Bremsstrahlung Processes 187
Werner Nakel

16. Angular Distribution and Polarization of x-Ray Radiation by Electron Impact on Free Atoms 205
M. Aydinol, R. Hippler, I. McGregor, and H. Kleinpoppen

17. Energy Dependence of the Alignment in Inner-Shell Ionization by Electron Impact 215
W. Sandner, M. Weber, and W. Mehlhorn

18. Identification of States Excited by Collision: Current State of Theory . . . 223
U. Fano

19. Angular Correlation between Autoionization Electron and Scattered Ion in Slow He^+–He Collision. 229
R. Morgenstern and A. Niehaus

20. Coherence Effects in Postcollision Interactions in Electron Impact Experiments 243
Frank H. Read and John Comer

21. Collision-Stimulated Autoionization 257
V. I. Matveev and E. S. Parilis

22. Electronic Correlation in Electron–Atom Scattering 269
R. K. Nesbet

23. Observation of the Postcollision Interaction in the Scattered-Electron Spectra of Helium 277
D. Roy

24. Excitation of Autoionizing States in Noble Gases by Fast Electrons 283
V. V. Balashov, A. N. Grum-Grzhimailo, N. M. Kabachnik, A. I. Magunov, and S. I. Strakhova

25. The Postcollision Interaction as a Manifestation of Many-Electron Correlations 297
M. Ya. Amusia, M. Yu. Kuchiev, and S. A. Sheinerman

26. Coincidence Studies of Inner-Shell Excitation in Ion–Atom Collisions . . . 315
H. O. Lutz, N. Luz, S. Sackmann, W. Jitschin, and R. Hippler

27. Coherent Production of Positrons in Heavy-Ion Collisions 331
J. Reinhardt, B. Müller, and W. Greiner

28. Alignment of Core-Excited Autoionizing Be^+ Projectiles Excited in Single Gas Collisions 361
P. Bisgaard, R. Bruch, P. Dahl, and M. Rødbro

29. Interference Effects in *K*-Shell Vacancy Sharing. 369
R. Schuch, G. Nolte, W. Lichtenberg, and H. Schmidt-Böcking

30. Coherent Excitation of Ionic States by Correlated Collisions in a Crystal Lattice 373
S. Datz

31. Alignment, Orientation, and the Beam–Foil Interaction 387
R. M. Schectman, L. J. Curtis, and H. G. Berry

32. Polarized-Photon, Scattered-Ion Coincidence Study of Mg^+ Collisions with He, Ne, and Ar 395
N. Andersen, T. Andersen, C. L. Cocke, and E. Horsdal Pedersen

33. Coherence Effects in Heavy-Ion–Atom Collisions 403
C. Bottcher

34. Excitation of $Cd(5^3P_1)$ and $Cd(5^1P_1)$ in Na^+–Cd Collisions: Optical Polarization and Population of Magnetic Sublevels 413
Vincenzo Aquilanti, Piergiorgio Casavecchia, and Gaia Grossi

35. Spin Polarization in Ion–Atom Collisions Studied with Ion Storage Techniques 423
Hans A. Schuessler

36. Scattering Experiments with Laser-Excited Atoms 437
R. Düren

37. Orbital Angular Momentum State Coherence in Charge Transfer to the $n = 2$ Hydrogen Levels by Fast Protons in Gases 447
L. Liljeby, S. Mannervik, S. Hultberg, and I. A. Sellin

38. Photon-Scattered Atom Coincidence Study with Vector Polarization Analysis for K–Noble-Gas Collisions 457
L. Zehnle, E. Clemens, P. J. Martin, W. Schäuble, and V. Kempter

39. Alignment and Orientation Measurements in He^+–He and He^+–H_2 Collisions 473
D. H. Jaecks, F. Eriksen, and L. Fornari

40. Simultaneous Electron–Photon Excitation of Atoms 479
F. H. M. Faisal

41. Energy and Angular Momentum Exchanges between Two Electrons in a Coulomb Field 493
H. G. M. Heideman

42. Oscillatory Structure of Excitation Functions in Atomic Collisions 509
D. Hasselkamp, A. Scharmann, and K.-H. Schartner

43. Quantum Mechanical Phase Coherence and Polarization in Low-Energy Ion–Atom and Ion–Surface Collisions 533
Norman Tolk and Joseph Kraus

44. Polarized Electron–Lithium Scattering 567
W. Raith, G. Baum, D. Caldwell, and E. Kisker

45. Polarization Effects Caused by Interference in Electron Scattering and Photoionization 577
Joachim Kessler

46. Spin Polarization of Electrons by Resonance Scattering from Mercury . . . 587
E. Reichert

47. Spin-Dependent Inelastic Electron–Atom Scattering 593
G. F. Hanne

48. Spin-Polarized Photoelectrons from Unpolarized Lead Atoms Exposed to Unpolarized Radiation 607
U. Heinzmann, G. Schönhense, and A. Wolcke

49. Total Cross Sections for the Scattering of Low-Energy Electrons by Excited Sodium Atoms 613
B. Jaduszliwer, R. Dang, P. Weiss, and B. Bederson

50. Orientation and Alignment in Scattering Processes from Laser-Excited Atoms 625
H. W. Hermann and I. V. Hertel

51. Photon Polarization Dependence of Superelastic Electron Scattering by Laser-Excited Barium 641
D. F. Register, S. Trajmar, S. W. Jensen, and R. T. Poe

52. The Effect of the Angular Coherence of Each Beam, in a Crossed Beam Experiment, on Observations of the Small-Angle Elastic Scattering . . . 651
K. Rubin and I. Efremov

53. Polarized-Beams Studies of Spin Exchange in Electron–Hydrogen Collisions 663
M. S. Lubell

54. Ionization of Polarized Alkali Atoms by Polarized Electrons 689
D. Hils, K. Rubin, and H. Kleinpoppen

55. Total Cross Section of Interference between Direct and Exchange Interaction in Polarized Electron Impact Excitation of Polarized Atoms 697
H. Kleinpoppen
