

CONTENTS OF VOLUME 2

Contents of Volume 1	xiii
--------------------------------	------

SECTION VI: ELECTRONS, PHOTONS, AND CHANNELING

Radiative Electron Capture and Bremsstrahlung Herbert W. Schnopper and John P. Delvaille	481
Radiative Electron Capture by Channeled Oxygen Ions B. R. Appleton, T. S. Noggle, C. D. Moak, J. A. Biggerstaff, S. Datz, H. F. Krause and M. D. Brown	499
The Influence of Channeling on the Shape and Intensity of Doppler-Broadened Spectral Lines Produced by Light Ion Bombardment of Metals C. Kerkdijk, C. Smits, D. R. Olander and F. W. Saris	509
Optical Line and Broad-Band Emission from Ion-Bombarded Targets W. F. van der Weg and E. Lugujo	511
Reduction of the Characteristic Radiation Due to the Channeling Effect N. P. Kalashnikov	523
Electron Channeling in Si, Ag and Au Crystals S. Kjaer Andersen, F. Bell, F. Frandsen and E. Uggerhøj	529
Emission of Electrons and Positrons from Crystals - Directional Effects A. P. Pathak	531
Channeling of 25 MeV Positrons and Electrons A. Neufert, U. Schiebel, and G. Clausnitzer	539

The Channeling-Blocking Effect of Energetic Electrons . . .	547
F. Fujimoto, K. Komaki, H. Fujita, N. Sumita, Y. Uchida, K. Kambe and G. Lehmpfuhl	
Coherent Photon Emission by Fast Particle Excited Atoms in Electromagnetic Field	555
M. I. Riazanov	
Effect of the Levels of the Transverse Motion of Electrons on the Electromagnetic Processes in Monocrystals	559
N. P. Kalashnikov, E. A. Koptelov and M. I. Riazanov	
SECTION VII: SURFACE SCATTERING	
Medium-Energy Ion Scattering by Crystal Surfaces	569
V. A. Molchanov	
Some Directional Effects in Forward Ion Scattering by Crystal Surfaces	571
E. S. Mashkova and V. A. Molchanov	
On the Scattering of Low Energy H^+ and He^+ Ions from a (001) Copper Surface	573
H. H. W. Feijen, L. K. Verhey, E. P. Th. M. Suurmeijer and A. L. Boers	
Influence of Thermal Lattice Vibrations on Multiple Ion Scattering	583
L. K. Verhey and A. L. Boers	
X-Ray Production and Energy Loss in Low-Angle Ion Scattering at Solid Surfaces	595
B. W. Farmery, G. S. Harbinson, A. D. Marwick, H. Pabst and M. W. Thompson	
Surface Scattering of Low Energy Ions	599
W. Heiland, H. G. Schäffler and E. Taglauer	
Hybrid Computational Studies of Elastic Scattering of Atoms	611
J. Pearce, R. E. Crosbie, D. G. Armour and G. Carter	
Sputtering of Condensed Gases by Proton Bombardment	625
S. K. Erements and G. M. McCracken	

The Angular Distribution of Fast Charged Particles Reflected by the Surface of a Single Crystal	635
N. P. Kalashnikov	

SECTION VIII: CHANNELING

Hyperchanneling	645
J. H. Barrett, B. R. Appleton, T. S. Noggle, C. D. Moak, J. A. Biggerstaff, S. Datz and R. Behrisch	
Channeling Studies of Alkali Halides	669
P. B. Price and J. C. Kelly	
Molecular Ion Transmission Through a Monocrystalline Thin Film	681
M. J. Gaillard, J.-C. Poizat and J. Remillieux	
A Combination of Dechanneling and Energy Measurements of Protons in Thin Silicon Single Crystals	693
G. Götz, K. D. Klinge and U. Finger	
Flux Peaking, Dechanneling Cross Section, and Detection Probability in Channeling and Blocking Experiments from Computer Simulations and Analytical Models	717
H. J. Pabst	
Analysis of Blocking Lifetime Experiments	735
Y. Hashimoto, J. H. Barrett and W. M. Gibson	
Channeling, Blocking, and Range Measurements Using Thermal Neutron Induced Reactions	737
J. P. Biersack and D. Fink	
Experimental Investigation of the Reversibility Rule at Non Zero Depth	749
S. U. Campisano, G. Foti, F. Grasso and E. Rimini	
Effect of Reaction Time on the Minimum Yields of Axial and Planar Blockings	765
F. Fujimoto, K. Komaki, H. Nakayama, M. Ishii and K. Hasatake	
High Index Planar Channeling in Silicon	775
H. E. Roosendaal, W. H. Kool, F. W. Saris and W. F. van der Weg	

SECTION IX: CHANNELING

Double Planar Alignment Scattering with a Very Thin Crystal	779
M. J. Gaillard, J.-C. Poizat, J. Remillieux, F. Abel, M. Bruneaux and C. Cohen	
Axial and Planar Channeling in TiO_x System	791
G. Della Mea, A. V. Drigo, S. Lo Russo, P. Mazzoldi, S. Yamaguchi, G. Bentini, A. Desalvo and R. Rosa	
Energy Dependence of the Surface Minimum Yield for Axial Channeling	811
G. Della Mea, A. V. Drigo, S. Lo Russo, P. Mazzoldi, G. Cornara, S. Yamaguchi, G. G. Bentini, G. Cembali and F. Zignani	
Experimental Study and Stochastic Interpretation of Oscillatory Effects in Backscattering Spectra in Planar Channeling	819
F. Abel, G. Amsel, M. Bruneaux and C. Cohen	
Interstitial Atom Location in Silicon by Single and Double Alignment Backscattering of MeV Helium Ions	825
K. Morita and H. D. Carstanjen	

SECTION X: DECHANNELING

Validity of the Statistical Equilibrium Hypothesis for Channeling	841
John H. Barrett	
Axial Dechanneling, I. A Theoretical Study	843
H. E. Schiøtt, E. Bonderup, J. U. Andersen and H. Esbensen	
Axial Dechanneling, II. An Experimental Study	863
M. J. Pedersen, J. U. Andersen, D. J. Elliott and E. Laegsgaard	
Dechanneling and Rechanneling Calculations	877
R. D. Edge and Q. C. Murphree	
Modified Dechanneling Theory and Diffusion Coefficients . .	891
M. Kitagawa and Y. H. Ohtsuki	
Inelastic Scattering in Channeling	897
Yoshi-Hiko Ohtsuki	

Channeling in a Non Perfect Crystal	905
S. U. Campisano, G. Foti, F. Grasso and E. Rimini	
Transmission Energy Spectra of Channeled Protons Scattered in Thin Silicon Films	919
F. H. Eisen and J. Bøttiger	
Interference Decrease of Elastic Scattering of Fast Charged Particles in Single Crystals	929
N. P. Kalashnikov, E. A. Koptelov and M. I. Riazanov
