

CONTENTS

FUNDAMENTAL PROCESSES IN ENERGETIC ATOMIC
COLLISIONS

Fundamental Processes in Atomic Collision Physics	1
H.S.W. Massey	
Anisotropy of Collision Excited States	39
J. Macek	
Atomic Photoionization	69
A.F. Starace	
Electron and Positron Scattering	111
B.L. Moiseiwitsch	
Coupling of the Radiation Field to the Electron-Atom Collision System	145
R.H. Pratt	
The Radiative Decay of Inner Shell Vacancies	183
J.P. Briand	
Electron Decay Processes	253
W. Mehlhorn	
Techniques of High Resolution Auger Electron and X-Ray Spectroscopy in Energetic Ion Atom Collision	295
N. Stolterfoht	
Theory of Coulomb Excitation and Ionization	319
E. Merzbacher	
Electron Capture in Ion-Atom Collisions	349
K. Taulbjerg	
The Molecular Approach to Energetic Atomic Collisions: Specific Aspect of Outer Shell Collisions	389
M. Barat	

Molecular Treatment of Atomic Collisions (Inner Shells) 421
J.S. Briggs

Coincidence Techniques in High Energetic Heavy Ion Atomic
Physics 447
H. Schmidt-Böcking, W. Schadt and S. Kelbch

SYMPOSIUM ON COHERENCE AND CORRELATION
IN ATOMIC COLLISIONS

Threshold Laws 483
H. Klar

Spin Dependent Threshold Laws and Ionization Asymmetries in
Electron-Atom Collisions 489
H. Kleinpoppen

Correlation Effects in (e,2e) Processes 509
G. Stefani

Shapes and Orientation in Collisionally Excited Atoms:
A Comment on Density Matrices, Coordinate Frames and
Coherence 519
I.V. Hertel

Development and Analysis of Electron-Photon Angular
Correlations from Electron Impact Excitation of Atoms 531
H.J. Beyer and H. Kleinpoppen

Ion-Photon Angular Correlations in Slow Atomic Collisions 551
R. Hippler

Vector Polarization Analysis for Quasi-Two-Electron Systems:
Mg-Inert Gas Collisions 559
W. Heydenreich, W. Knöpfle, B. Menner, L. Zehnle, and
V. Kempter

Autoionization Processes and Alignment in Atomic Collisions .. 567
R. Morgenstern

Alignment in Inner Shell Processes 575
W. Jitschin

SYMPOSIUM ON NEW ASPECTS IN ATOMIC COLLISIONS

Laser Effects in Atomic Collisions 585
G. Ferrante

CONTENTS

Spin Effects in Atomic Collision Processes 611
H. Kleinpoppen

Inelastic Scattering Processes with Polarised Particles 621
K. Blum

Highly Charged Recoil Ions 637
K.-H. Schartner

Electron Excitation and Positron Emission in
Quasi-Molecular Collisions of very Heavy Ions 649
G. Soff, U. Müller, T. de Reus, P. Schlüter, J. Reinhardt,
B. Müller, and W. Greiner

SUMMARY

Summary Lecture 659
H.S.W. Massey

Participants 669
