

CONTENTS

Foreword	vii
Session 1	
The Changing Scenario of Nuclear Physics <i>B. C. Sinha</i>	1
Session 2: Elastic Scattering	
Quasi-elastic Scattering between Heavy Ions near the Coulomb Barrier <i>J. S. Lilley</i>	29
The Unification of the Nucleon Optical Potential <i>P. E. Hodgson</i>	39
Determination of Nuclear Potentials by Inversion <i>R. Lipperheide</i>	58
Session 3: Inelastic and Charge Exchange Reactions — I	
Experimental Investigation of Spin-isopin Excitations in Nuclei with (p,n), (d, ² He) and Heavy Ion Induced Charge Exchange Reactions <i>C. Ellegaard</i>	66
Heavy-ion Charge-exchange Reactions as Spin Probes <i>N. Anantaraman</i>	74
Session 4: Inelastic and Charge Exchange Reactions — II	
Role of Various Reaction Mechanism in Exciting Nuclear Continuum in Proton Induced Reaction <i>P. P. Singh & M. K. Saber</i>	82
Resonant Structures in Heavy-ion Reactions <i>B. A. Robson</i>	90

Session 5: Reaction Induced by High Energy Electrons/Electromagnetic Excitation in Nuclear Collision

Nuclear Reactions with Medium and High Energy Electrons <i>H. D. Holmgren</i>	98
The Mechanism of $(e, e'x)$ Knockout Reactions <i>H. P. Blok</i>	121
Nuclear Reactions and Vacuum Polarization <i>M. K. Banerjee</i>	132

Session 6: Equilibrium and Pre-equilibrium Processes/Single and Multiple Processes — I

Generalised Exciton Model Theories for the Description of Pre-equilibrium Angular Distributions <i>E. Gadioli</i>	145
New Approach to Pre-equilibrium and Evaporative Charged Particle Emissions in Central Collisions of Light Heavy-ions <i>J. P. Coffin et al.</i>	157
Pre-equilibrium and Dissipative Processes as Multistep Direct Reactions <i>H. H. Wolter</i>	167

Session 7: Equilibrium and Pre-equilibrium Processes/Single and Multistep Processes — II

Collective Spin-isospin Response in Nuclei <i>F. Osterfeld</i>	178
Effective Interactions for Nucleon-nucleus Scattering <i>W. G. Love</i>	188
Fusion Time in Heavy Ion Collision <i>C. S. Shastri</i>	199
How Important are Nuclear Excitation Effects in Pre-compound Processes? <i>S. Ghosh</i>	204

Session 8: Fission-fusion, Sub-barrier Fusion and Incomplete Fusion — I

Fifty Years of Fission and Nuclear Physics in India <i>S. P. Pandya</i>	212
Fission: The First 50 Years <i>R. Vandenbosch</i>	217
Scission Timescales of Hot Nuclei <i>D. Hilscher et al.</i>	228
Tantalizing Picture of Fission of Uranium Induced at Extreme Sub-barrier Energies <i>N. N. Ajitanand</i>	238

Session 9: Fission-fusion, Sub-barrier Fusion and Incomplete Fusion — II

Theory of Sub-barrier Fusion <i>M. A. Nagarajan</i>	246
Capture to Compound Nucleus Formation — Dynamical Aspects of Heavy Ion Fusion Reactions <i>V. S. Ramamurthy</i>	257
Thermal Effects in Heavy Ion Reactions <i>D. Sperber</i>	265
Limiting Temperature in Finite Nuclear Systems <i>J. N. De</i>	273
Angular Momentum Transfer and its Misalignment Due to One-body Inelastic Excitation in Nucleus-nucleus Collisions <i>S. Pal</i>	282

Session 10: Transfer and Break-up Reactions — I

The Quest for Absolute Spectroscopic Factors <i>H. Nann</i>	293
High-lying Single-particle Modes in Heavy Nuclei <i>S. Galès</i>	302

Information on the Nuclear Interaction from Few Body Systems <i>B. Kühn</i>	315
Heavy Cluster-decay of Radioactive and 'Stable' Nuclei, Cluster-transfer Resonances in Heavy-ion Reactions and Structure of Heavy Nuclei <i>R. K. Gupta</i>	328
Radial Form Factor in Transfer Reactions <i>N. G. Puttaswamy</i>	335
Session 11: Transfer and Break-up Reaction — II	
Mechanism of Light Ion Breakup Reactions <i>J. Ernst</i>	342
Features of Light Ion Elastic Breakup at 10 MeV/A <i>A. C. Shotter</i>	350
Break-up of Light Projectiles — A Source of Astrophysical Information <i>H. Rebel</i>	364
Session 12: Transfer and Break-up Reaction — III	
Theory of Inclusive Break-up Reactions <i>M. Ichimura</i>	374
The Tertiary Reactions with Charged Fragments <i>M. Mihailović & R. Krivec</i>	382
Deuteron Induced Reactions <i>S. Mukherjee & S. Chakravarti</i>	392
Missing Amplitudes from Medium Energy Transfer Reactions <i>J. A. Tostevin et al.</i>	403
Session 13: Transfer and Break-up Reaction — IV	
Charge Exchange Reaction at Large Energy-momentum Transfer <i>B. K. Jain</i>	412

Deuteron D-State Effects on Polarization Transfer Coefficients of the (d,p) Reaction <i>T. Nakashima et al.</i>	422
Tidal Symmetry in Heavy-Ion Scattering <i>R. C. Johnson</i>	430
 Session 14: Transfer and Break-up Reaction — IV	
Partition of the Fusion-like Cross Section in $^{14}\text{N} + ^{159}\text{Tb}$ at 22 MeV/Nucleon <i>R. H. Siemssen et al.</i>	439
Fragmentation in Heavy Ion Induced Reactions <i>A. Budzanowski</i>	448
Complex Fragments from Incomplete Fusion Processes <i>L. G. Moretto et al.</i>	457
Multifragmentation of Finite Excited System in Ising Model <i>S. K. Samaddar & J. Richert</i>	465
 Session 15: Accelerator Facilities in India	
BARC-TIFR Heavy Ion Accelerator Facility <i>S. S. Kapoor</i>	474
An Inter University Accelerator Based Research Centre <i>G. K. Mehta</i>	482
 Session 16: Transfer and Break-up Reaction VI/Electromagnetic Excitations in Nuclear Collision	
Relativistic Heavy Ion Physics Without Nuclear Contact <i>C. A. Bertulani</i>	487
High Energy Gamma Rays from Nuclear Collisions <i>D. K. Chakrabarty</i>	495
Nuclear Co-operation and the Mechanism of Sub-threshold Reactions <i>R. Shyam & B. Ghosh</i>	505

Fragment Interactions in Nuclear Multifragmentation Process <i>L. Satpathy</i>	517
Coulomb Dissociation of Light Ions <i>D. K. Srivastava et al.</i>	525
 Session 17: Interface of Nuclear Structure and Nuclear Reaction	
What Have We Learned about the Nucleus from the Study of Dynamical Symmetry? <i>D. H. Feng</i>	532
 Session 18: Sub-Nucleonic Degrees of Freedom in Nuclear Reaction	
Quasielastic Response in Quantum Hadrodynamics <i>K. Wehrberger & F. Beck</i>	542
The EMC Effect — Bridge between High and Low Energy Nuclear Reactions <i>S. Raha</i>	550
Conference Summary <i>M. K. Pal</i>	564
Conference Programme	582
List of Participants (a)	598
List of Participants (b)	615
