

## Contents

Officers of the Symposium . . . . .	v
Contributors . . . . .	vii
Preface . . . . .	xi

### INTRODUCTION

The Scope of the Symposium . . . . .	3
V. E. COSSLETT	
The Problem of Reflection Microscopy . . . . .	17
PAUL KIRKPATRICK	
Contact Microradiography: A General Survey . . . . .	24
ARNE ENGSTRÖM	
Point Projection X-Ray Microscopy . . . . .	34
W. C. NIXON	

### TUBES FOR CONTACT MICRORADIOGRAPHY

A Continuously Evacuated, Water-Cooled, Copper-Target, X-Ray Tube Producing Soft X-Rays for X-Ray Absorption Studies . . . . .	49
PATRICK J. FITZGERALD	
Fine-Focus X-Ray Tube with Turret Window and Rotatable Target . . . . .	59
R. V. ELY	
A Simple Contact Microradiography Unit with Sealed-Off X-Ray Tube . . . . .	64
S. L. VAN DEN BROEK	
Discussion . . . . .	71
Monochromatic Sources of Ultrasoft X-Radiation for Quantitative Microradiographic Analysis . . . . .	72
BURTON L. HENKE	

### TUBES FOR PROJECTION MICRORADIOGRAPHY

Description of the Delft X-Ray Microscope . . . . .	91
J. B. LE POOLE AND ONG SING POEN	
Improvements in the Point Projection X-Ray Microscope . . . . .	96
V. E. COSSLETT, W. C. NIXON, AND H. E. PEARSON	
Discussion . . . . .	105
The Conversion of an Electron Microscope to Point Projection X-Ray Microscopy . . . . .	106
BENJAMIN M. SIEGEL AND KENNETH C. KNOWLTON	

A Shorter-Focal-Length Electrostatic Objective Lens for the Point Projection X-Ray Microscope . . . . .	116
S. P. NEWBERRY AND S. E. SUMMERS	
Discussion . . . . .	126
Point Projection X-Ray Microscopy with the Aid of a Camera Obscura	128
B. M. ROVINSKY AND V. G. LUTSAU	

### DESIGN AND CONSTRUCTION OF REFLECTION MICROSCOPES

The Compound, Four-Mirror, Reflection X-Ray Microscope . . . . .	135
HOWARD H. PATTEE, JR.	
Experimental Investigations on a Total Reflection X-Ray Microscope	151
W. HINK	
A Long-Wavelength X-Ray Reflection Microscope . . . . .	164
J. F. MCGEE	
The X-Ray Microscope with Catamegonic Roof-Shaped Objective . . . . .	177
M. MONTEL	
Design of X-Ray Microscope Mirrors Using an Electronic Computer	186
ALBERT V. BAEZ	
Reflection of X-Rays and the Reflection Microscope . . . . .	195
L. M. RIESER, JR.	

### METHODS AND TECHNIQUES IN CONTACT MICRORADIOGRAPHY

Some Physical Aspects of Contact Microradiography . . . . .	213
W. EHRENBERG AND M. WHITE	
Discussion . . . . .	216
High-Resolution Contact Microradiography with Ultrasoft Polychromatic X-Rays . . . . .	218
A. ENGSTRÖM, R. C. GREULICH, B. L. HENKE, AND B. LUNDBERG	
Contact Microradiography Below 1 kv . . . . .	234
A. RECOURT	
Conditions for Optimum Visual and Photometric "Contrast" in Microradiograms . . . . .	240
B. L. HENKE, B. LUNDBERG, AND A. ENGSTRÖM	
Discussion . . . . .	248
Quantification and Automation in Contact Microradiography . . . . .	249
OLLE HALLÉN AND HOLGER HYDÉN	
Discussion . . . . .	257

- Applied Microradiography in Medical Research: Its Contemporary  
Difficulties and Prospective Possibilities . . . . . 259  
F. BOHATIRCHUK

### INTENSITY AND RESOLUTION IN PROJECTION MICRORADIOGRAPHY

- X-Ray Microprojector . . . . . 269  
B. M. ROVINSKY, V. G. LUTSAU, AND A. I. AVDEYENKO
- Design of a Field-Emission X-Ray Tube . . . . . 278  
HOWARD H. PATTEE, JR.
- A Field Emitter Point Projection X-Ray Microscope . . . . . 287  
L. MARTON, R. A. SCHRACK, AND R. B. PLACIOUS
- A Contribution to the Theory of Point Projection X-Ray Microscopy  
and Contact Microradiography . . . . . 293  
GÜNTHER LANGNER
- Problems of Image Formation and Contrast in Point Projection X-Ray  
Microscopy . . . . . 310  
N. A. DYSON
- Optimum Conditions of Magnification and Contrast in Projection  
X-Ray Microscopy . . . . . 321  
V. E. COSSLETT

### MICRODIFFRACTION

- Microdiffraction Techniques . . . . . 331  
W. EHRENBERG
- Discussion . . . . . 335
- The Point Projection X-Ray Microscope as a Point Source for  
Microbeam X-Ray Diffraction . . . . . 336  
W. C. NIXON

### GABOR DIFFRACTION; SCANNING METHODS

- Effect of Finite Source Size, Radiation Bandwidth, and Object  
Transmission in Microscopy by Reconstructed Wavefronts . . . . . 347  
ALBERT V. BAEZ AND HUSSEIN M. A. EL-SUM
- Discussion . . . . . 366
- Possibilities of the Scanning X-Ray Microscope . . . . . 367  
HOWARD H. PATTEE, JR.
- Discussion . . . . . 373

- A Scanning Microscope for X-Ray Emission Pictures . . . . . 374**  
 P. DUNCUMB AND V. E. COSSLETT

### NEW IMAGING TECHNIQUES: PRODUCTION OF X-RAYS

- High-Resolution X-Ray Microscopy . . . . . 383**  
 W. A. LADD AND M. W. LADD  
 Discussion . . . . . 387
- Improved Definition in X-Ray Diagnosis by High-Voltage Projection  
 Microradiography . . . . . 390**  
 W. C. NIXON  
 Discussion . . . . . 390
- Preliminary Notes on a New Method of Image Production  
 Using X-Rays . . . . . 392**  
 G. MÖLLENSTEDT AND L. Y. HUANG
- Fundamental Intensity Limits of X-Ray Microscopes. . . . . 397**  
 W. C. NIXON AND H. H. PATTEE, JR.
- Measurements of the Spectral and Angular Distribution of  
 X-Rays from Thin Targets . . . . . 405**  
 V. E. COSSLETT AND N. A. DYSON

### QUANTITATIVE MICROANALYSIS

- Microchemical Analysis by Emission Spectrographic and  
 Absorption Methods . . . . . 417**  
 LOUIS ZEITZ AND ALBERT V. BAEZ
- Some Methods of X-Ray Microchemical Analysis . . . . . 435**  
 J. V. P. LONG AND V. E. COSSLETT
- Quantitative Cytochemical Elementary Analyses by X-Ray Absorption  
 Spectrophotometry . . . . . 443**  
 BO LINDSTRÖM  
 Discussion . . . . . 447
- Microradiographic Studies of Developing Bone in Human Embryos . . . . . 448**  
 GÖRAN WALLGREN  
 Discussion . . . . . 461

### HISTOLOGY; BIOLOGICAL APPLICATIONS

- Microradiographic Techniques and Plant Histology . . . . . 465**  
 JANINE SALMON

Stain Historadiography (Combined Staining and Historadiographic Technique) and Its Application to Studies of Undecalcified Bone Together with Soft Tissues . . . . .	473
F. BOHATIRCHUK	
Osmium Tetroxide Fixation Observed by Means of Microradiography	475
A. RECOURT	
Discussion . . . . .	482
Contribution to Microradiography in Plant Biology: Cancerization and Tissue Growth . . . . .	484
JANINE SALMON	
Discussion . . . . .	486
Observations on Wood Sections . . . . .	487
C. K. JACKSON	
The Application of X-Ray Microscopy to a Study of Insect Flight Musculature . . . . .	492
D. S. SMITH	

#### MEDICAL AND DENTAL APPLICATIONS

Changes in Mass Concentration of the Pancreatic Acinar Cell during Degeneration, Death, and Regeneration Following Ethionine . . . . .	507
PATRICK J. FITZGERALD	
A Comparison of the Mass Concentration of Normal and Carcinoma in Situ Cells of the Human Uterine Cervix by Means of the X-Ray Contact Microradiography Technique . . . . .	520
P. J. FITZGERALD, T. G. LI, AND V. YERMAKOV	
Microradiography in Pathology of the Breast . . . . .	531
FELIX LEBORGNE, RAÚL LEBORGNE, AND FELIX LEBORGNE, JR.	
Stereomicroradiography of the Limbal Region of Human Eye . . . . .	534
H. H. PATTEE, JR., L. K. GARRON, W. K. MCEWEN, AND M. L. FEENEY	
Microradiographic Studies of the Vascular Patterns in Muscle and Skin	539
R. L. DE C. H. SAUNDERS, J. LAWRENCE, AND D. A. MACIVER	
Microradiography in the Formation of Renal Stones and Preparation of Specimens . . . . .	551
R. J. CARR	
Microradiographic Studies of Human Adult and Fetal Dental Pulp Vessels . . . . .	561
R. L. DE C. H. SAUNDERS	

<b>Microradiography of Bone Metastases</b> . . . . .	572
M. JUSTER, H. FISCHGOLD, AND J. ECOIFFIER	

### METALLURGICAL AND OTHER APPLICATIONS

<b>Some Applications of Microradiography in Iron and Steel Research</b>	581
K. W. ANDREWS AND W. JOHNSON	
<b>The Microradiography of Metals: Its Advantages and Limitations</b> .	590
R. S. SHARPE	
Discussion . . . . .	600
<b>Potentialities and New Applications of Microradiography in Some Metallurgical Problems</b> . . . . .	603
E. VOTAVA, A. BERGHEZAN, AND R. H. GILLETTE	
<b>Microanalysis with a Scanning X-Ray Microscope</b> . . . . .	617
P. DUNCUMB	
<b>Preliminary Observations on Some Geological and Metallurgical Specimens</b> . . . . .	623
C. K. JACKSON	
<b>Applications of and Some Sources of Error in X-Ray Microchemical Analysis</b> . . . . .	628
J. V. P. LONG	
Discussion . . . . .	635
<b>Author Index</b> . . . . .	637
<b>Subject Index</b> . . . . .	642
